EXPLANATION.

When a number, unaccompanied by letters, follows the name of an animal, it refers to the registry of that animal in the Herd Register of the American Jersey Cattle Club.

When a number preceded and followed by letters is attached to the name of an animal, it refers to the registry of that animal in the Herd Book on the Island of Jersey. The significance of the accompanying letters is as follows: P. stands for Pedigree Stock; F. for Foundation Stock; C. indicates a Commended animal; and H. C. one that is Highly Commended.

TERMS AND CONDITIONS OF SALE.

Terms Cash. Twenty-five per cent. to be paid in cash immediately after the animal is sold, OR THE SALE MAY BE DECLARED VOID, at option of the seller. The balance of the purchase money to be paid in cash on the day of sale, and before the animal is delivered; and, if the balance is not paid or satisfactorily secured within said time, the twenty-five per cent. will be forfeited as an agreed liquidation for damages, and the sale to be void.

Warranties. When an animal is warranted, the fact and particulars of the warranty will be proclaimed from the auction stand, otherwise animals are sold with all faults and defects, and nothing warranted except right and title to the property. Buyers must look directly to the seller for verification of the warranties, and for the delivery of the animals in accordance herewith. Warranties must be tested before 12 o'clock, noon, Monday, June 1st, 1908, and before the animal is delivered, and should exception to the warranty be taken by the buyer he must notify the auctioneer in writing before that hour, after which the auctioneer's responsibility ceases, and he is at liberty to pay the money to the seller.

Pedigrees. All the cattle are entered, or expected to be entered, before the date of sale, in the Herd Register of the American Jersey Cattle Club, and application for transfer will be furnished with each animal. Should exceptions occur they will be announced at the time of sale, unless the catalogue indicates them by the omission of the registry number. Beyond the fact that the pedigrees have been accepted for registry, and that care has been exercised to have them correct to the best of the ability of the seller, no representations are made regarding them and nothing warranted.

Bids. Where there are two or more claimants for a deciding bid, and the auctioneer is in doubt whose bid was heard, the question may be settled by putting up the animal for advance bids. After the first bid is made, no advance of less than \$10 each will be taken, except on young calves, when a special limit will be announced.

Delivery and Keeping. Buyers must procure from our bookkeeper, for each animal purchased, a separate order on the seller, and orders so obtained should be placed in the hands of the person or agent who is to remove the animals. Buyers assume all expenses and risk on animals after they are struck down; except that transportation charges will be prepaid to the following points: Cincinnati, Indianapolis, Chicago, and Worcester, Mass. No charge for keeping will be made on animals removed Monday, June 1st.

Bidders Not Present. Bidders at a distance, who write or telegraph us instructions to buy for their account, ought to give reference that the transactions may be promptly closed and animals shipped.

L. F. HERRICK, Manager.

CREDIT.

While the terms of Sale are CASH, special credits of three to twelve months will be given to responsible parties, by the same giving bankable notes with approved security, bearing interest from date. So that no detention may take place at day of sale, parties are respectfully requested to communicate with us before day of sale. Where notes are accepted for certain animals, the transfers will be held until the notes are paid.

T. S. COOPER & SONS.

Persons unable to attend the sale may send bids to Mr. L. F. Herrick, our sale manager, who will place the bids in the hands of thoroughly reliable people.

CLIPPINGS FROM "JERSEY BULLETIN" since our last sale, May, 1907.

MOST PROFITABLE AND MOST DELIGHTFUL.

C. I. Hood, Lowell, Mass.

The activity on the subject of dairying in the Agricultural Department at Washington under the progressive ideas and wise policy of the able secretary James Wilson, and his efficient corps of assistants, in the Dairy Department of the Bureau of Animal Industry, naturally brings the Jersey under prominence, because of the world-wide fame she won in her phenomenal work in the competitive public authenticated tests at Chicago and St. Louis, in which she demonstrated her ability, beyond question, to produce dairy products at a lower net cost than any other breed of dairy cows.

The result of this is no doubt felt in an increased number of inquiries and sales in other herds, as well as our own.

At no time since I became interested in stock raising, do I recall such activity, nor have we been able to command as good prices. The record breaking sale at Mr. T. S. Cooper's, and our excellent sale in the early part of the year, are sure indications of this increased interest; while the successful sales by Mr. Williams and Mr. James L. Cooper, in Tennessee, this winter, in the very midst of perhaps the greatest money stringency the country has ever experienced, show the permanent character of the interest in this great and steadily growing industry; and a further fact that among our sales in the closing month of the year, was a nine-weeks-old heifer calf at \$1,000, and the same day one six weeks old at \$350, corroborates the claim of unusual and increasing interest along Jersey lines.

It seems to me also that the Tennessee sale was the opening gun of a new era in the demand and in the prices for domestic bred stock.

I am thoroughly in harmony with, and believe in the work Mr. Cooper and others are doing in importing the grand animals from the Island, because I am sure it will raise the quality of our Jerseys to a point of excellence they could never attain without it.

Hence in summing up, I find the situation most gratifying, because looking at it from all points, it seems to be a permanent, profitable proposition

to those who are interested in the dairy industry, and more particularly to those whose good judgment and good fortune has cast their lot with the most profitable and the most delightful dairy cow—the Jersey.

And in conclusion may I add that our hope and ambition is that a prime factor in the development of the greatest family of this greatest dairy breed, will be the Sophie's Tormentor family, now in such remarkable evidence at Hood Farm.

[The above article had given us much pleasure. Judging from his breeding Sophie's Tormentor should certainly be an invaluable sire in any herd. His sire, Tormentor, 3533, imported, was the best son of Angela, F. 1607, H. C., winner of first over Jersey in 1877 and probably the best cow that Mr. Arthur ever bred, by Khedive, P. 103, H. C. His dam, Baron's Sophie, 17615, imported, was a large, handsome cow with excellent udder and well-placed teats. She has a butter test of 19 lbs. 15 ozs. Her half-sister Khelula, tested 21 lbs. 8 ozs. This speaks well for imported stock.—T. S. C.]

NAMING IMPORTED JERSEYS.

R. M. Gow, New York.

The rules of the A. J. C. Club are the product of a long experience, and it is not an easy matter for any one to suggest a real improvement. The rules applying to the names of imported cattle have from time to time engaged the attention of Jersey breeders, and in the judgment of some they are susceptible of being improved. The rules of the Club would be wonderful rules indeed were they not susceptible to improvement; nevertheless, it is not often that suggestions have been made which have recommended themselves to the Board of Directors, for many objections develop oftentimes to any proposed amendment when all its effects are considered (as only they can be adequately considered) by those perfectly conversant with the rules and their working.

When the naming of imported animals is considered alone, a certain change of the rules may seem to be an improvement, but the rules as to

names must apply alike to imported and domestic-bred cattle, or confusion would be the result. The demand has been made that importers be compelled to register Jerseys under their Island or English names. But this in some cases would result in duplicating names in the Club Herd Register, which its rules wisely prohibit.

Adding "Imp." before the name would not always make a distinction either. For instance, an importer might bring over Eminent's Safety, P. S. 10255, and register her as "Imp. Eminent's Safety" in the Club Register. Another importer might bring over Eminent's Safety, P. S. 10811, and under the proposed system she would also have to be registered as "Imp. Eminent's Safety." These are two actual cows registered in the Island Herd Book.

It should be borne in mind that the Club rules do not require all imported animals to be given new names. Only such names have to be changed as are duplicates of names already in the Club's Register, such as have too many letters, and such as have "2d" or some other numeral affix appended. Eminent 2d could not be registered under his Island name, as this would imply that his sire Eminent was already in the Club's Register under that name.

The true reason that nearly all imported animals are registered here under new names is that their importers or purchasers wish to have it so. They often think that they can give names in better taste and more appropriate than those the animals already bear. Most will admit that Mr. Cooper can confer a better name than the average Island of Jersey breeder left, as he is by the Island Herd Book rules, to the vagaries of his own erratic taste.

Not many American breeders would like to have their crack Jersey pass under the name of Stale Bread, a favorite Island name, it would seem, and the importer of an animal with such a name would consider the Club rules very harsh and arbitrary if he were compelled to retain it.

As to any confusion of identity resulting under the present rule which allows imported animals to receive new names when entered in the American Herd Register, attention is called

to the fact that the Island name and number is invariably printed in the Herd Register under the new name. For instance, turn to Eminent, 69631, and underneath the name will be found in brackets: [Eminent 2d, P. S. 2532, H. C.], and a footnote states that he was imported from the Island of Jersey by T. S. Cooper & Sons, etc.

It is a fact worthy of note that the objections to the present method of naming imported cattle do not come from the importers, who should be the first to feel the limitations and difficulties, if such there be, which obtain under the present rules. Note what Mr. Cooper writes: "The system of naming and registering cattle by the American Jersey Cattle Club is right, and duplicating names, as is done by some associations, is all wrong."

APROPOS OF THE COOPER SALES.

H. D. WARNER, Pawling, N. Y.

I was pleased and agreeably surprised to read in the March 11th issue of *The Jersey Bulletin* that T. S. Cooper & Sons are to hold their annual sale of imported Jersey cattle as usual on May 30th as I had heard it intimated that they would not hold a sale this year. I feel certain that all breeders of Jerseys will hail this announcement with joy, that they may again accept of the hospitality of "Linden Grove," which is so freely extended to buyer and pleasure-seeker alike.

I have attended all but one of the annual sales held at Linden Grove and have had the pleasure of meeting breeders from all parts of the United States, and have come to the conclusion that the incentive to travel such great distances to attend these sales is not only their unbounded confidence in the Coopers, but the fact of having an opportunity to bid on the "cream of the Island" and find the cattle as represented.

When one sees the same faces at the ring-side from year to year, many of whom have attended all of the Cooper sales, including those held in the early eighties, and have seen a million dollars worth of Island cattle sold at these sales within that time, with never a law-suit or serious dispute growing out of these sales, it leads one to believe that there is nothing superior to the Coopers' method of doing business with their fellow-man.

I had the pleasure of examining their new importation in quarantine and found the older animals the equal (as a whole) of any of their former importations, and the younger animals far superior.

INFLUENCE OF THE COOPER IMPORTATIONS.

J. E. DODGE, Narberth, Pa.

What deductions can we, as breeders, get from our visit to the Gedney Farm herd and sale? To me it was evident that the demand for good Jerseys far exceeds the supply. I was very strongly impressed with the fact that the beautiful, large-producing cow is the cow of the day and the cow that brings the money. One would expect (from reports in some so-called dairy papers) to see a lot of under-sized, emaciated Jerseys, but instead we saw a lot of imported Jerseys that have grown and developed into strong, robust animals, giving every evidence of doing great work at the pail and being a source of pleasure and profit to their owner.

I have been going to Cooper's year after year, studying the cattle to see wherein lay their great value. From my observations there and elsewhere, I would say it is largely due to the very superior character of the Cooper importations and the vast improvement these importations are making on the American Jerseys. Especially is this true in the second and succeeding generations. Practical men who are breeding for the improvement of their own herds and the breed at large, can not help seeing this and are laying a safe foundation for future successes.

The imported cows at Penshurst are better cows in every way to-day than when purchased at Cooper's; this is also true of the cows I bought for Hood Farm. I might add that three times the price paid for one of the cows would not induce Mr. Hood to part with her bull calf, and why should he, when he is breeding all the time for improvement? Nearly all the breeders know of the wonderful utility and beauty of the Sophie's Tormentor and Hood Farm Pogis families, due, I believe, to the influence of Tormentor, Baron's Sophie and Ona, all imported.

We hear on all sides, why is it the little Island of Jersey can keep selling their best year after year to America, England, Japan and other countries and still keep improving the breed? Is it not due to their system of registration, selection, shows and tests? Can not we learn much from them that will help us improve our herds? I have seen Cooper's last importation three times and I do not believe any lover of the Jersey cow can go there and not be inspired to try and improve his own herd.

Is there a Jersey breeder living but

what would like to own such a herd? What an array of good ones! Beautiful cows, with size, constitution and capacity! What an array of Island butter test winners, cows that have made two and three pounds of butter in a day, two to three hundred days in milk! Who can measure the benefit to American Jersey herds by the mingling of the blood of these great animals with them? The Jersey breeder who fails to go to Cooper's sale does himself an injustice.

WANTS TO HEAR FROM COOPER.

"AN INQUISITIVE SUBSCRIBER."

In a recent issue of the *Jersey Bulletin* I saw a picture of Mr. Howard Willets' handsome bull Peter Cooper's Pedro. I also note that he is bred by T. S. Cooper. Is this the same T. S. Cooper who is now dead in love with the imported Jerseys—the Blue Belles, the Golden Jollys, the Golden Ferns, Flying Foxes, Eminent, and all the other great families, tracing to the famous bull Golden Fern's Lad? While I am not breeding Jerseys for love nor money, and only keep a few to satisfy my ambition, and to supply our table with milk and butter of such quality that when I once got the taste I could not be weaned, I try to read the *Jersey Bulletin* every week. Still I find, old as I am, that I must have lost some of the "links" from 1882 to the present date, and I ask the *Bulletin* to assist me in persuading Mr. Cooper to tell us through your columns of all the great cows and bulls that he has bred and imported in the last 28 years, and why he left the Pedro strain in preference to that of Golden Fern's Lad. And perhaps if you give him time and space he will give us a list of 100 cows, the best he ever owned, and for what they sold, and most interesting of all a list of the bulls.

Reply: Our subscriber asks for something that has been often asked for by others. We know Mr. Cooper is not of a boastful nature; but no doubt when he is no more in Jersey "harness" there will be others who know what he has done and who will come to our assistance. We know of one away up in the Jersey business who has known Mr. Cooper for thirty-odd years. He was entertained at "Linden Grove" by Mr. Cooper's mother and sisters 32 years ago, before the present Mrs. Cooper was installed there.

When we stop and think of the great bulls and cows that have slept in the "Linden Grove" stables it makes one "boil over" with enthu-

siasm. There under those beautiful linden trees, on that lovely lawn, some of the greatest records in the world have been established for all breeds. For the last nine years on each Decoration Day, new sensations have been "sprung" upon the public; to-day "Linden Grove" is looked upon as historical, the most unique residential breeding establishment in this country.

These are busy days at "Linden Grove," and we doubt if our subscriber will get what he wants before snow flies. We remember at the last sale Mr. Cooper was physically "broken up;" even the sale of the \$10,000 bull calf did not warm him up. One prominent breeder said to him: "Now that the cattle are going away you will get a chance to shade yourself on the lawn." Mr. Cooper pointed up on the hill and said: "See that 30-acre field of clover, haying and harvest so near at hand will keep us out of mischief for some time to come."—Ed.

INDEPENDENT OF THE COMMERCIAL FEATURES.

We had occasion last week to correct an impression which had gotten out, that the *Jersey Bulletin* was owned by the American Jersey Cattle Club. It might be inferred by some who look at the pictures this week, that it is owned by T. S. Cooper & Sons. Such, however, is not the case. The Coopers have made a substantial and attractive addition to this issue; which, instead of subtracting from the usual space occupied by news matter, becomes by its very nature a most interesting feature that will be as "news" to every reader, though the ten pages are bought and paid for by these advertisers.

It is no ordinary work that the Coopers have done and are doing for Jersey interests, mainly through the activity of the senior member, Mr. T. S. Cooper, whose love for a good cow is not one whit less intense than his ambition and enterprise in a commercial way. Sentiment, as much as business, spurs him on. What he is doing in the exploitation of imported animals, is just what he did when he bred and developed those representatives of the Pedro and Marjoram lines upon which many high-class herds of America were built.

The owning and selling of such magnificent animals as are shown in the pictures this week is no new thing with Mr. Cooper. It has become a habit with him. For the past seven years he has given his attention again

to the importation of animals of this class, as he did in the 80's; and, as during the interval great herds were built upon Cooper stock from American families, so have our breeders created and reinforced herds of national reputation from Island bred animals of his selection. The Cooper doings are an affair of little less than general public concern, for they have a potent influence on the trend of Jersey interests.

Just to mention the famous bulls Pedro (American bred), Golden Fern's Lad, Eminent, and Flying Fox (Island bred), is to suggest "Cooper" and what he has done for American Jersey interests. Many more great bulls might be mentioned, and cows, such as Marjoram, Blue Belle (whose son follows Golden Fern's Lad in the Linden Grove herd), Lady Vernonia, Reminder's Duchess, etc., and the hundreds of more or less celebrated individuals whose blood has brought refinement wherever it touched.

Next year, if the occasion arises, the names of Eminent's Flying Fox, The Imported Jap, Imported Stockwell, Fontaine's Gold Medal and others pictured by the Coopers this week, with their descendants and companions in the same importation, can be pointed out as occupying positions of honor and usefulness in herds of character, as their predecessors have done. Why not?

A TYPICAL DAUGHTER OF EMINENT.

A. M. BOWMAN, Salem, Va.

Upon a supplement page of this issue is shown a picture of the great cow Eminent's Evasion, 187443. She is a typical daughter of our greatest-of-all Jersey bulls—Eminent, 69631, known on the Island as Eminent 2d, P. 2532, H. C., and who sold in the public sale of T. S. Cooper & Sons, May 30, 1905, for the unprecedented price of \$10,000, being bought by Mr. Geo. E. Peer, of Chili Station, N. Y., and sold to Bowmont Farms a few days later at a substantial advance upon the purchase price.

Eminent's Evasion was imported from the Island with her illustrious sire and was sold at the same sale to Bowmont Farms for \$1,500. She is entitled to rank with the queens of the Jersey breed. She is a show cow, a dairy cow, and a great breeding cow. As a show cow, she attracts the attention of every visitor. Her matchless dairy type, her beautiful head and placid countenance, her wonderful udder and richness of color, are the admiration of all who see her.

As a dairy cow, she has few equals. With her 1906 calf she milked 312 lbs. in a week, from which was churned 21 lbs. 1 oz. of butter. She has recently freshened again and is now milking over 50 lbs. per day, and has not yet attained to her full flow. Her next test will make Lady Letty Lambert tremble for her honors.

As a breeding cow, she has been in America but three years and has four living calves to her credit. In October, 1904, when in quarantine, she dropped the heifer Eminent's Sweet Evasion, owned by Mr. D. S. Williams, of Nashville, Tenn., and illustrated in this issue of the *Jersey Bulletin*, and which sold in Cooper's 1905 sale, when seven months old, for \$700. In 1905, she produced the matchless heifer Golden Fern's Bracelet, sired by Golden Fern's Lad. She is now in our herd and is one of the greatest of her breed. In 1906, to the service of her own sire, she produced the bull Eminent 15th, now in the herd of Mr. H. V. Prentice, of Worcester, Mass., and who is destined to make his impress upon even so good a herd as that of Mr. Prentice. Her last calf is a beautiful heifer, also sired by Eminent, and from present appearances there will be no room to criticize the close inbreeding.

Eminent's Evasion is only one of the many great daughters of her matchless sire. It has been said of him, by one whose judgment and conservatism are highly esteemed, that "Eminent never sired a poor daughter." Be this as it may, there is certainly a uniformity of type about them, for substance, dairy type and working capacity, that is rarely equaled by the daughters of any sire.

Mr. T. S. Cooper says: "Eminent 2d is without any exception the handsomest and most typical dairy bull I have ever seen. Where is there another bull that can claim the distinction of being the sire of five of the best females shown at the Royal Show over the Island for two years in succession, and at the same time being good enough to be shown in the best of company himself? His daughters are the heaviest and most persistent milkers we have ever had sired by one bull."

AFTER A VISIT TO ROCKWOOD HERD.

Mr. H. M. Shaw, Housatonic, Mass., has written the following to Mr. B. M. Hawks, superintendent of the Rockwood Herd of Jerseys, Tarrytown, N. Y.:

"I am more and more impressed by the splendid herd of cattle it was

my pleasure to see at 'Rockwood,' the longer I dwell upon them. I can't help but think of the remark that is made by so many Jerseymen, that 'the imported stock is very handsome, but is of no use in the dairy.' I wish each and every one of them might see the business end of your cows, having the rest of the animal concealed, and then suddenly have the covers removed; it surely would startle them some, and I believe all would be converted. I made the following remark to one of my men when I returned: 'No more American bred bulls for me—nothing but imported stock goes from this time on.' "

[The following article from the pen of the genial Secretary of the Island Herd Book, Mr. John A. Perree, was inserted in our 1907 catalogue; but it created such enthusiasm among Jersey breeders, that we could not resist the temptation to re-publish it.—T. S. C.]

ISLAND JERSEYS IN DENMARK.

"World's Premier Dairymen" Buy all the Island Cattle They Can Get and Ask for More.

JOHN A. PERREE,

Secretary Island of Jersey Herd Book.

"If a report to the *Jersey Bulletin* of your visit to Denmark is likely to still further stimulate the demand for our cattle in America and elsewhere, don't send it." Such were the words with which I was met by a prominent breeder some few days after your paper, in which I promised to write about the Jerseys in Denmark, had reached us.

My adviser did not wish to imply that the custom should be discouraged but, in the ensuing conversation, he said: "We are selling our cattle faster than we rear them and unless a check is applied, the Jersey farmer will hand over the local butter market to the foreigner." Mr. Francis Le Brocq, who has had 40 years' experience as an exporter, endorsed this view and added:

"I have never known cattle so scarce; I have not been able to obtain half the number I wanted last autumn and one can not say the prices they would have reached if farmers had been well provided with roots and fodder, but the exceptional and prolonged drought of the summer assisted me, as many sold who would otherwise not have parted with their animals. How many spared a cow to the Coopers to oblige them, thinking they might replace them, but have been unable to do so."

I merely state this to show how

brisk the demand is for our cattle, a circumstance which all Jersey breeders will be proud of, as it tends to show that the Jersey is justly appreciated.

Now about my visit to Denmark. As your readers are aware, this country has gradually become recognized as the principal producer of butter and dairy products in the world. By applying the most economical system of production, persistent endeavor and determination, backed by judicious business methods, the Dane has achieved the premier position in the dairy world, and by this means has spread prosperity throughout his country solely by this one industry. Therefore, when the man who holds this proud distinction comes to us annually and buys all the cattle we can produce and always want "more," with the object of displacing his native cattle, we may, I think, feel proud of our cow.

This constant demand for "more" aroused my curiosity and I resolved to go to Denmark and see the Jersey in her new country and study her progress. I went to Fredrikshavn, the nearest town to the residence of the genial and much respected president of the Danish Jersey Cattle Society, who promptly insisted on my taking shelter at his hospitable and palatial home.

I could never have fallen in better hands than in Mr. Larsen's, for he gave me all his time, his teams of horses, and generally assisted me until the Secretary of the Society (Mr. P. Petersen) took me "in hand." Then Mr. Larsen, Jr., gave me a few days, and to these three gentlemen I am indebted for the most pleasant and interesting holiday I ever had.

THE FIRST IMPORTATIONS.

Mr. Larsen, Sr., was the first man in Denmark to recognize the value of the Jersey as a butter cow and imported his first lot of some 100 head in 1898. He has assisted at every importation and now prides himself in having bought over 3,000 head and as he says, "my only regret is that I can not get more."

For some years after the first importation, we heard little or nothing of this pioneer consignment. The cows were, so to speak, "feeling their way," and few of us suspected that they were so stealthily undermining the enemy's country. But the Danish farmer, always practical, soon became convinced of their superiority and promptly urged Mr. Larsen to continue his importations, with the result above mentioned.

It was an easy matter for me to ascertain the yields of every herd visited, as by means of the Control Asso-

ciations existing throughout Denmark, the farmer keeps a ledger account, not only with his herd as a whole, but with every individual cow. The Control Association weighs and analyzes the produce of every cow regularly and keeps account of the food she consumes, the whole being so arranged that this entails very little expenditure on the farmer and assures the strictest accuracy, thus the figures submitted are beyond doubt or cavil.

JERSEYS AS MORTGAGE LIFTERS.

Small wonder, therefore, that the Jersey has so rapidly assumed her true position in this land where dairying is a profitable industry! Let anyone who says that she is the millionaire's luxury go to Denmark and see her in the possession of large and small farmers, on good and poor land, in the sand hills along the coast where one would scarcely expect to find a goat, and her owner invariably proud of his Jersey—I say, go to Denmark and see her as the poor man's cow and the mortgage lifter.

Having regard to your space I had better confine myself to the yields of some of the herds I visited and other cursory details.

The first year after importation (1898-'99), Mr. Larsen's herd consisting of 107 head in milk, mostly heifers, produced an average yield of 252 lbs. butter per cow, and although the herd still included a large percentage of heifers in 1905-'06, the annual yield average 307 lbs. per cow. I took the following notes from Mr. Larsen's "Control" book, which in his case is under Government supervision:

Dewdrop, now 10½ years old, has given 2,000 lbs. butter in 5 years; Darkey, now 10 years old, has given 2,669 lbs. butter in 7 years; Faithful Maid 2d, now 10 years old, has given 2,987 lbs. butter in 8 years; Rose (bought from a lot originally sent to Sweden), now 12 years old, has given 3,269 lbs. butter in 9 years.

We next visited Mr. F. Hasselbalch, Linderungard, Sindal, who had sold all his native cattle and replaced them with Jerseys. He very kindly suggested that I should look at his "Control" books, which would better illustrate the superiority of the Jerseys. I copied the following interesting results:

84 mature Danish cows yield in one year in milk sold to the co-operative dairy, 11,969 Kronen.

116 mature Danish cows yielded in one year, 16,476 Kronen.

82 Jerseys, mostly heifers, yielded in one year, 20,119 Kronen.

100 Jerseys, many heifers, yielded in one year, 28,000 Kronen.

(1 Krone—26½ cents.)

Mr. Hasselbalch is loud in his praises of the Jersey cow. He states that he was at his wits' end to know how to make his farm pay until he tried Jerseys. They have been the means of transforming a loss into a profit of £500 a year. At the time of my visit, workmen were busy building new barns, fixing machinery, etc.—on the profit of the Jerseys, as Mr. Hasselbalch took care to remark.

Mr. Larsen and I next visited the herd owned by Mr. S. Nielsen, of Kargaard, near Hjørring. This herd struck me as being especially good and I went to great pains to ascertain whether Mr. Nielsen had had an opportunity of selecting his lot on arrival, for from 18 head imported, he had raised a beautiful herd. But I found that he had had the same treatment as others; namely, the cattle are apportioned in lots and farmers draw numbers as to the lot they get. Yet I was astounded, and after a second round of the stable, I could scarcely believe my eyes and my only regret was that 20 Island breeders were not with me to see this herd and the hooks showing irrefutable facts.

Certainly in selling young heifers Island breeders have no idea what good cows these will ultimately become, for here was a herd of 30 beautiful cows with an average yield of 357 lbs. per cow for the last four years. In 1905-6 one cow's yield was 533 lbs., seven others were over 400 lbs., and thirteen just under that figure. Nos. 17 and 18 struck me as being as fine a pair as one cares to see and their yields were 459 and 533 lbs., respectively.

I was asked to select the best show cow in the stable and chose No. 12. I found she was a daughter of Golden Fern's Lad, and last year (her second in milk) she gave 443 lbs., and with first calf 370 lbs. She had also won first prize at the Hjørring Show last summer. Here again was a man lost in enthusiasm over the Jersey, who said amongst other advantages possessed by the breed, is that of longevity as compared to their native cow.

I might go on giving endless examples of herds such as these. One cow holds the record with 898 lbs. in less than 365 days, and was safe in calf. She is by a sire which I was told, by one prominent American breeder, he thought very little of on paper. I can not help mentioning a very amusing incident at one stable visited. Before reaching this particular farm, Mr. Larsen told us that the owner had intended selling his farm as the returns were not consistent with the work and risks entailed. Being a neighbor of Mr. Larsen, he got a Jersey cow, and

many others soon followed, the consequence being the withdrawal of the farm from the market, "as it now pays."

We looked at the cows and I noticed a beautiful cow, very much the type and color of "Reminder's Duchess," sold in 1905 at Cooper's. I asked to see her outside, and the owner readily acceding to my request, led her out past the house, and I followed. Suddenly a lady opened the door and before I had time to raise my cap, she flung a storm of abuse at her husband, who was equally taken aback and could not get a word "in" to explain the situation. The good lady thought I had come to buy the cow and when matters had been righted, we were asked inside to partake of "schnapps and cigars," accompanied by much good-hearted laughter and countless apologies on both sides.

I was naturally interested to see the native breeds with which the Jersey was competing so successfully and asked to be shown some of the best herds. One breed is red, not unlike the Devon in color, and the other black and white, resembling the Holsteins, though of different type. We saw some beautiful herds of both, and when visiting one of the former, a very long and, to me, unintelligible conversation took place between Mr. Peterson and our host. On driving off, Mr. Peterson said: "The farmer wants 50 Jerseys next year, but I can only promise him 20."

Asked whether I wanted to see a Holstein herd, I readily assented. On entering a large stable with some twenty beautiful cows on either side, I could not withhold my admiration. I questioned my companion on the merits of these cows, as I did elsewhere, but I noticed he was somewhat reticent. I called his attention to a young cow that was much finer in bone and outline than the rest, without getting any reply other than a broad smile.

Arriving at the end of the double rows of cows, I asked to see the bulls, when my guide burst out in loud laughter. Having recovered, he said "Come along," and we were shown to another stable occupied by young stock, every one of which was by a pure bred Jersey bull, and at the end of this building stood the sire—a grand animal imported from this Island in dam.

We were most hospitably entertained at this farm, where I had the privilege of a long conversation in perfect English with one of the daughters. In alluding to the cows, this lady said: "My father would like to have all

Jersey cows but he can not afford to buy them just now."

With regard to one of the most celebrated black-and-white herds in the country which I visited, I could pay an even greater compliment to the Jerseys, but information is such that I can not publish it without special permission, which I forgot to obtain.

BUTTER TESTS IN DENMARK.

Many disparage the one, seven or thirty-day tests, adducing very tangible reasons in support of their contention. The custom prevailing in Denmark would probably meet their views, for the value of a Jersey is gauged by her annual yield of butter. One of the conditions of entry in the Herd Register is that a cow must in two consecutive years produce her own live weight of butter, her milk must average five per cent. of fat, and she must drop her calves within the prescribed 365 days, that is, if she is under 800 lbs. live weight. If over that weight, 800 lbs. of butter is fixed as the minimum for the heavier class.

Anyone who has witnessed the departure of a consignment of cattle to Denmark knows full well that they are not specially selected, of any particular strain or of any individual point of merit, but bought, registered or not, from every farmer, whether prominent or unknown as a breeder, in every parish in the Island.

Having seen our cow under such favorable conditions, showing profits where other breeds can not pay their way, I naturally returned home jubilant, but I derived greater satisfaction from the fact that the little cow is the one which is most appreciated by the Danish farmer. I do not mean in comparison to other breeds, but the average size Jersey, weighing about 700 lbs. live weight, is the animal I allude to.

LARGE JERSEYS NOT DESIRED.

This is the cow that gives, not only the most profit, but in nine cases out of ten, gives the largest yields annually. I have so often been told: "Your Island cows have no size, they are not roomy, we like them stronger, showing more constitution, deeper in the chest, broader through the heart, etc., so that they may stand the 'racket,'" whatever that may mean; and I admit that I thought we might with advantage grow them larger and had often spoken in vain to some of our breeders on this point.

I was laughed at, jeered at, I may say. "You want living hay barns," they replied, "such as our great grandfathers had. We have bred them out, as the small cow is more profitable." I am now convinced that our breeders are right and my plea for size on a Jer-

sey as an essential to great productiveness is causing some merriment among my friends. Another cause of intense satisfaction is the yields of these cows, furnishing evidence that the Island breeder is not, as some would have it, sacrificing utility to beauty.

Briefly told such is the progress of the Jersey in the land of profitable dairying, and on my return from Denmark I could only congratulate Island farmers on their great success as breeders, but I could not help adding that they were the worst feeders I had ever met.

I trust the great prosperity which your country is enjoying of which we read in the press will benefit all Jersey breeders and the *Jersey Bulletin*.

The following article, from the pen of that well-known cattle expert, Mr. Valency E. Fuller, the former owner of the great cow, "Mary Ann of St. Lambert," as well as other famous animals in the Stoke Pogis family, appeared in the *Practical Dairyman*, of May 14th, 1908:

"For some time there was a doubt among Jersey breeders whether the Messrs. T. S. Cooper & Sons would hold a public sale of Jerseys this spring owing to the financial depression. And there was consternation among those who thought that this sale might be passed over this year, because the Cooper sales have had a most wonderful influence in stimulating interest in Jerseys, and adding to the prices which are paid for them. We know of no single thing that has done as much to sustain the breed and to stimulate prices as the sales of imported cattle which Mr. Cooper has held for the past eight years. Mr. Cooper is a pastmaster in the art of selecting, fitting, advertising and attracting the attention of buyers, to these sales. He might succeed in doing this once, but he could not do it each succeeding year unless the offerings of cattle were of the very highest order nor unless they possessed intrinsic merit.

From the time that Mr. Cooper held his first sale of imported cattle, eight years ago, he has led the market in prices which have steadily advanced from year to year. As a result, the demand has been for imported cattle rather than home-bred.

Nor is this the only benefit to the breed. He has been the means of bringing to this country some of the greatest and most perfect cows that the Island has bred. It is, however, principally through the sires that he has sold at his sales that the greatest

benefit has accrued to American breeders. At each of his sales Mr. Cooper has made great claims for the prominent bulls to be offered, and yet the results of the use of these bulls in the American herds has more than fulfilled all claims that were made for them.

The first important bull Hamley, known in this country as Golden Lad's Champion, purchased by Elmer A. Darling, Pres. of the A. J. C. C., revolutionized the type of cows at Darlington. One cross not only improved the beauty of type, gave wonderfully straight back and rumps and very full fore udders, but gave a finish to the cows rarely found in this herd heretofore. They are not only very beautiful, but they are very heavy milkers and rich. His daughters have been sold for the top notch. There are only five of them remaining at present in the Darlington herd, two of which I recently bought for a customer of mine, and I would like to have purchased the whole five, but Mr. Carpenter would not sell them, so beautiful are they and of such a wonderfully uniform type. So pleased was Mr. Carpenter with the use of Hamley, that he bought two other imported bulls from the Cooper sales; namely, Flying Fox's Grey Duke and Flying Fox's Oxford Duke, to breed onto the daughters of Hamley and each of them has left his mark for good in the herd.

The following year, the bull Mon Plaisir was purchased by Mr. H. H. Higginbotham, for \$3,500. While this bull has not had the opportunity he should have had, we are told he has produced some wonderfully handsome and good daughters. One has only to look over his daughters in the coming Cooper sale, to realize that they are superb as individuals and great as dairy animals.

Then followed the sale to Thos. W. Lawson, of Flying Fox, for \$7,500. Everyone knows what a beautiful type the daughters of this bull have. They have won in the show ring not only all over this country but in Canada. Wherever he has been used, he has improved the American-bred Jerseys and has stamped his own great inherited qualities, through his sire Golden Fern's Lad, and of his beautiful dam Sultanna's Rosette.

Taking the other sales of the leading bulls in their order, we have Forfarshire, sold to Filston Farms; Blue Belle's Blue Fox, sold to D. S. Williams, Nashville, Tenn.; Eminent 2nd., sold to A. M. Bowman, Salem, Va.; and Stockwell, to A. B. Lewis, Fredericksburg, Va.

Forfarshire is out of Sultana's Rosette, by a grandson of Golden Lad; Blue Belle's Blue Fox is a grandson of Flying Fox, out of the great cow Blue

Belle; Eminent 2nd is a son of Golden Fern's Lad; and Stockwell is a grandson of Flying Fox and Golden Fern's Lad.

It will be seen that all these great bulls are deep in the blood of that great sire Golden Lad, and most of them inbred; and most of them partake of the blood of that great cow Rosette, and are close up to Golden Fern's Lad or Flying Fox.

Every year the mooted question between breeders is, 'will Cooper's importation of this year equal the former ones?' And each year the answer is in the affirmative.

When I hied myself to Linden Grove, April 29th, I expected the answer to the question that was in my mind as to this importation equalling the last one must be in the negative; because I did not believe that Mr. Cooper would ever present for public favor as good a lot as he did last year. I am, however, glad to say that I was in error in my preconceived opinion, for I have no hesitation in saying, that no importation that Mr. Cooper has ever made has equalled that which will be sold at public auction, at Linden Grove, on May 30th. They are truly wonderful. In some of the other importations there may have been individual cows that stood out preeminently from their stable companions, owing to the fact that the others did not approach them. This is not so marked in this lot, for although there are cows and heifers just as handsome and well bred and possessing as great ability as dairy animals as Mr. Cooper has ever offered for competition, individuals do not stand out, owing to the fact that the average is of a higher order than has ever been the case. This is the most uniformly good lot that Mr. Cooper has ever brought over. It is not surprising that they resemble one another very closely, for if you look at their breeding, you will usually find that they are practically all of one family, tracing back to the same lines of blood that have made these sales so successful, in the past, for among them will be found the blood of Golden Fern's Lad, through daughters of his sons Golden Jolly, Eminent 2d and Flying Fox, some by Golden Fern's Lad himself, Stockwell, Hamley, Oxford Lad, Leda's Golden Lad, Sultana's Golden Lad, Mona's Glory, Reminder, Hearty Fox, Morny Cannon, Peru's Lad, Noble of Oaklands, Sultan of Oaklands, Cowslip's Golden Lad, Mabel's Raleigh and the two bulls, to be sold in this sale, Lucy's Champion and Royal Majesty.

As I passed down the main barn and saw the long rows of great cows on each side, with their beautiful heads,

T. S. COOPER & SONS' AUCTION SALE OF JERSEY CATTLE.

wonderful backs, great bodies and immense udders, very perfect in shape and set off by great teats and having that type which the Island cattle alone possess, I could not help but feel what a debt Jersey breeders owe to the enterprise, the good judgement of T. S. Cooper; and what a vast amount of good the scattering of this blood throughout the length of the land is bound to do. I never saw a more beautiful lot than those in the Cooper barn, April 29th. Nor is it their beauty alone that appeals to me; it is the evidence of dairy quality that greatly impresses me, and this was materially added to when I saw them milked out in the afternoon, the fresh cows overflowing ten-quart pails, some of them requiring a second pail before all the milk was drawn from their udders.

Buyers are always interested in the kings of the herd. At this sale there will be two: Lucy's Champion, 79315, A. J. C. C. and Royal Majesty, P. 3523, J. H. B., H. C., besides a number of younger ones.

Lucy's Champion is known on the Island, under the same name, P. 3731, H. C., and was Reserve over Jersey, August, 1905; Sweepstakes at Western Show, 1905 and 1906; Champion winner, at Western Show, 1907. He is by that great bull Oxford Lad, a son of Flying Fox and Oxford Lass, and his dam is Lucy Belle, F. S. 8962, H. C., a wonderful dairy cow, whose udder measured 78 inches, winner of first prize at St. Lawrence Show, 1902-3-4. Lucy Belle is a daughter of Eminent 2nd. My, what breeding! A son of Oxford Lad, out of a Highly Commended daughter of Eminent 2nd!"

LUCY'S CHAMPION.

"I was particularly attracted by this bull. He is a wonderfully clean cut animal for his size, for he is very long and deep, and yet it is clean as a whistle. His head is just perfect, very much dished, with large, prominent eyes, and very yellow horns. And O, such a neck and wither; the former, very long and the latter very thin, but widening out behind the shoulders so that it forms a wedge, and gives great depth through the heart. His back lines and loins are splendid; his hips are just right; his paunch is very large and very deep, and he carries a great belly. His hide is a wonderful one, unctious, pliable, yet not a paper one, but shows great circulation of blood. His legs are short, and he is well cut out behind. His rudimentaries are very, very large, and are perfectly placed, and he is well veined. He impressed me as an exceedingly handsome bull, a show bull, a bull of good size and constitution, and yet as clean as

they are built, with a wonderful hide and skin, and showing great quality. A handsomer bull is not often seen.

I examined two of his daughters, one just springing with first calf, a wonderful little heifer who looks more like a matured cow, with a very perfect body and a superb udder, which runs away up on her belly, is very level, full in front, and set off by splendid teats. She is a beauty and promises to grow into a great cow.

The other one was not so far along towards calving, but shows very beautiful lines and great promise of dairy excellence. If these two daughters are to be taken as evidence of the breeding qualities of this bull, they show him to be a bull of a very high order of merit.

His Majesty, P. S. 3523, H. C., is half-brother of Lucy's Champion, both being sired by the great bull Oxford Lad. His dam is Oxford Ixia 3rd., P. S., 8584, H. C., winner of Silver Medal, Butter Test, October, 1903, 2 lbs. 1½ ozs. butter, 235 days in milk; Bronze Medal, May, 1904, 2 lbs. 15½ ozs. butter, 94 days in milk; truly wonderful records at public trial. This bull has in his breeding very beautiful types and great evidence, through his dam, of dairy qualities."

ROYAL MAJESTY.

"By the side of Lucy's Champion stood Royal Majesty, a darker bull, with dappled stars. He is very properly named, for he is majestic in his carriage. He has just as beautiful a head as his stable companion, which is exceedingly dished, with large, prominent eyes. His neck is long and thin, as is his wither, which is wedge-shaped looking from the top. He has an excellent rump and loins and is strong in the back. His body is very deep, especially at the flank, and he is well ribbed. He is wonderfully short-legged; his tail is well set on, long and thin; his hide shines like satin; he is very deep, a bull of great constitution yet exceedingly rich, very stately in carriage, with an uplifted head. A bull who shows unusually well.

Some of his get in milk were pointed out to me, and a wonderfully handsome lot they are, very beautiful, very showy, and yet with every indication of dairy capacity. From what we saw of his get, it is very evident that he is a very prepotent bull, and ought to prove good enough to head any herd and add lustre to it.

Viola's Golden Jolly is another bull, not in the sale, but many females are in calf to him, so I describe him. He is a son of that great bull Golden Jolly, who as all the world knows is a son of

that great bull Golden Fern's Lad, out of that wonderful cow Brookhill Rose 2nd. The Golden Jollys are coming into greater and greater esteem each year, as well they may; for they are not only very beautiful, but are wonderful dairy animals.

His dam is Lady Viola, P. S. 8463, H. C. She was First over Jersey, 1904; in the May, 1904 Butter Test, she gave 2 lbs. 12 ozs., 50 days in milk; First over Jersey and winner of the Theatre Champion Cup, May, 1905; First Prize, Sweepstakes and Champion, St. Saviour and Gronville, 1905; Champion over all England, 1906-7. Her dam Bagatelle, full sister to Golden Lad's Fawn Duchess, test 23 lbs. 6 ozs. in 7 days. Lady Viola is dam of Noble of Oaklands, P. S. 3909, H. C., First Prize, St. Saviour, 1907; and of Miss Viola, P. S. 9644, H. C., 2 lbs. 15 ozs. public test, 39 days in milk when 4 years and 1 month old; and of Willoh's Rosy, P. S. 10444, H. C., 3 lbs. butter, public test, when 38 days in milk, age 4 years and 1 month; and of Poppy Viola, P. S. 10902, H. C., butter yield, public test, 1 lb. 15 ozs., when 155 days in milk with first calf, age 30 months."

VIOLA'S GOLDEN JOLLY.

"Here is a bull that will suit the most fastidious judge. He is one of the handsomest bulls I have seen for many a day; cleanest as possible, yet exceedingly long and very deep, especially at flank. His head is simply beautiful, very much dished, with prominent eyes, and as he was led out he carried his head up as if he knew we would admire him. He has a wonderfully long, clean neck; a perfect wither; is deep through the heart; and has a back to tail setting that defies criticism. He is splendidly ribbed; is short-legged; and has a great paunch. He is well cut out behind; his hide is like shiny satin, is soft and mellow and yet shows plenty of circulation of blood. His thighs are flat, and he has a good arch behind. He is wonderfully handsome, with grand carriage, exceedingly rich, and a bull that would impress anyone with his perfect individuality.

There are about the usual number of bulls ready for service, which will be in this sale, including four sons of the great bull Golden Fern's Lad. Two of them are full brothers, being a year apart in their ages, and both out of that beautiful cow Golden Beatrice 2nd, 162060, who tested 2 lbs. 10 ozs. in 24 hours in May, 1904, being at the rate of 18 lbs. 6 ozs. butter in 7 days. She has milked as high as 48 lbs. a day. She is a double granddaughter of Golden Lad, and has as dam Golden Beatrice, 157826, sold in 1901 to Mr. Geo. Vanderbilt, Biltmore, N. C., for

T. S. COOPER & SONS' AUCTION SALE OF JERSEY CATTLE.

\$1,400 and who has a test of 22 lbs. butter in 7 days and 89 lbs. 5 ozs. in 30 days.

Another son of Golden Fern's Lad is out of Miss Viola, 195796, winner of the Goddington Prize, with a record of 2 lbs. 15 ozs. at public test when 39 days in milk. She is a daughter of Lady Viola, before referred to. If anyone is seeking a bull with unsurpassed sire and dam and deep in the blood of Golden Lad, here is one for him.

Still another son of Fern's Lad is out of Eminent's Mona.

Some of the other sires of bulls are Stockwell, Noble of Oaklands, Oxford Lad and Mabel's Raleigh.

There are some bull calves, all coming within the bull-calf class for shows; two by Stockwell, one by Rochette's Golden Lad, one by Royal Majesty and one by Blue Belle's Golden Fern. These yearlings and younger bulls will offer an opportunity to secure wonderfully bred bulls to head herds or to use in the show ring, for they are all very beautiful.

It would be impossible for one to

begin to convey any idea of beauty and perfection of type, and the dairy qualities of the cows and heifers in milk to be sold, May 30th. Although we spent an entire day at Linden Grove, it was with greatest reluctance that we could tear ourselves away from these lovely dames, because they are a sight never to be forgotten.

I must content myself with describing two cows as representatives of all the others, because there are many others equally as good. Eminent's Safety, a daughter of Eminent 2nd, is a great milk machine and yet a great beauty, one of the most beautiful things I have ever seen with a great body, enormous udder, perfect in shape, splendidly rounded in front, away up on the belly and away out behind, with large teats splendidly placed. Her neck, wither and hip bones are perfect. Her milk veins are grand. She is a wonderful cow, a beauty and a great milker. Ralph told me she was giving 44 lbs. a day.

Golden Maid of St. Lawrence, the Gold Medal cow in the butter test, is fawn and white and is a very long, deep-

bodied cow, with a very pretty head; extra long, thin, ewe neck; razor-like wither; great loins; broad hips; high hip bones and flat thighs. She has a tremendous udder, covered with veins and fed by great milk veins. She is a grand cow, of the Coomassie type, a great producer and a grand butter cow.

When I have, in the past, described the offerings of the Messrs. Cooper, I have made the assertion that the story has not half been told, and that a critical examination by an expert judge will not only fully bear out everything I have said with regard to the animals composing the importations, but will demonstrate that they are far better than my account would lead people to believe. So I say again go to Linden Grove, examine the hundred and twenty-five head (including calves) which will, on May 30th, be sold to the highest bidder, and you will say that this is the best and most uniform lot that the Messrs. Cooper or T. S. Cooper have ever offered to the Jersey public. You will be assured of a hearty welcome and feel that you have amply repaid by what you will see."

Two Daughters of Majesty.

Boyle,

P. 1559, H. C.

Sire of the celebrated bull Golden Fern's Lad, P. 2160, H. C. Fontaine 7th, 8th and 9th, all prize winners over the Island. Fontaine 9th, milked over 9,000 lbs. milk in a year; 41 lbs. 4 ozs. in 24 hours, from which 2 lbs. 10 ozs. of butter was made. "Boyle" also sired the great cow "Speckled Band," dam of the wonderful cow "Nursie," that made the phenomenal record of 2 lbs. 7 3/4 ozs. of butter in 24 hours in the public butter test, after being in milk 300 days, and within 90 days of calving. She sold in our May, '07 sale, for \$2,200 to Mr. A. B. Lewis.

During our visit to the Island of Jersey, for a number of years, it has always been our great pleasure to examine the daughters of the famous bull Boyle. They were of great size carrying beautiful heads; thin, long neck; strong, straight back; the very best of loins; broad hips; sharp withers; "bread basket" wide and deep, which alone told the tale. The very best of udders and teats of good size and beautifully placed.

Everton King, P. 390, C., was a remarkable sire of grand cows of magnificent dairy type, inheriting the same from his illustrious dam Quality, who won first prize and Champion Cup at the Royal Show, 1882, and made 16 lbs. 8 ozs. of butter. Twenty-six years ago, when on the Island, I was so taken with her that I bought, at a long price, her son, Everton King, P. 390, C., and left him on the Island to be bred to my cows before shipment to America. Quality is also dam of the great bull Happy, F. 309 C. that left a grand lot of dairy cows on the Island.—T. S. C.

Brown Fern 2d, P. 1944, H. C., is out of Brown Fern, F. 4606, C. Dam of Eminence, F. 7124, C. Sweepstakes N. C. Show, '92. Dam of Little Eminence, 21 lbs. 6 ozs. Winner of 1st prize Wisconsin, Minnesota, Iowa, Indiana and St. Louis Fairs. Also Sweepstakes winner Minnesota State Fair, '02. Eminence is also dam of Eminent and Eminent 2d, two famous Island sires. Brown Fern is also dam of Brown Fern 2d, P. 1944, H. C., winner of 2d prize St. Martin Show, '94, '95. Brown Fern is also granddam of Golden Fern, P. 4711, H. C., 2d prize winner over Jersey, '94, and dam of the World Renowned Bull Golden Fern's Lad, P. 2160, H. C.

GOLDEN FERN'S LAD, P. 2160, H. C.

The most celebrated bull the Island of Jersey ever produced. He has more Highly Commended animals (for the numbers registered) in the Jersey Herd Book, and more Champions and First prize Winners to his credit than any other bull. His son, Flying Fox, sold in our May, 1902 sale, for \$7,500. His son, Eminent 2d, sold in our 1905 auction sale, for \$10,000. His eight months' old bull calf, "The Sensational Fern," sold in our May, 1907 sale, for \$10,200 and in the same sale his grandson "Stockwell," sold for \$11,500. His daughter, Golden Fern's Sensation, won Second prize at the great St. Louis Show, 1904, and was sold at auction for \$2,250. His daughter, Golden Sultane, won Third prize at the great St. Louis Show, September, 1904, and sold in the ring for \$2,350. Ten of his get have been sold at an average of \$4,560 each. His five tested daughters averaged 18 lbs. 5½ ozs. each. His son, Eminent 2d, has ten tested daughters averaging 20 lbs. 4 ozs. each, and many more to come. His son, Flying Fox, has five tested daughters averaging 17 lbs. 4 ozs. each. His son, Carnation's Fern Lad, has six tested daughters averaging 16 lbs. 1½ ozs. each. Golden Fern's Lad's best daughter in the public butter test is Freedom, 2 lbs. 10 ozs. butter in 24 hours at Tring Show Ring, England, being 140 days in milk. Gold Mine, another daughter, won Gold Medal, Tunbridge Wells, England, 2 lbs. 7 ozs. butter in 24 hours, being in milk 150 days. In our 1908 sale we will sell such a remarkable collection of females sired by his sons Golden Jolly and Eminent 2d, that it will convince the most skeptic that he is the most prepotent bull that ever lived. If his son "Golden Jolly" were living and could be sold at our next sale with his daughters, \$15,000 would not be a bad investment.

The following is a copy of what Mr. Peter C. Kellog wrote in Mr. Peer's Sale Catalogue when Golden Fern's Lad was sold:

"Golden Fern's Lad is without doubt the most popular Island bred bull with discriminating breeders in Jersey, England, and America, of any one that has ever appeared, not excepting his double grandsire, Golden Lad. He was taken from the Island to England in November, 1898, before his great worth as a sire became established, and ever since that time, Island breeders have expressed regret that he could not be brought back to Jersey. Had that been possible, those best informed express the belief that more money would have been paid for him and that he could have earned more in service fees than any other bull that ever stood on the Island.

"The uniform excellence of the cows got by Golden Fern's Lad, P. 2160, H. C., was the wonder of the Island of Jersey as soon as his earlier career as a sire had made the facts evident. Subsequently they became the admiration of all England, where the bull had gone and where most of his Island-bred daughters soon followed him. The leading herds of England were vying with each other to secure for exhibition and breeding purposes the very finest cows on the Island at the time when "Fern's" daughters were coming into their inheritance. To obtain the best was to obtain his daughters, and it perforce followed that the Island was promptly almost stripped of them, and particularly of the better ones. They found places of honor in the herds of Lord Rothschild, at Tring Park; Mr. J. Reid Walker, at Rudgley; Mr. R. J. Pope, Plumpton; Capt. A. B. S. Frazer, at West Tarring; etc. A few determined Island breeders put prohibitive prices upon good daughters of Golden Fern's Lad, and when American breeders, after a long lapse, resumed importing on a more considerable scale, these few remaining daughters of Golden Fern's Lad were the highest priced cows on the Island. In his importation of 1899, sold at auction in May, 1900, Mr. T. S. Cooper brought one of these, registered here as Golden Sultane, 146282, that fetched the top price of his sale, \$1,600. Two years later, in May, 1902, the bull Flying Fox, P. 2729, H. C., by Golden Fern's Lad, topped the same importer's sale by bringing \$7,500, which is the highest auction price for a Jersey that has yet occurred. But these conspicuous instances in this country very faintly reflect the great value of Golden Fern's Lad as a sire measured by the achievements of his daughters in the dairy tests and his sons and daughters in the show rings and the breeding fields of the Island, England, and, to some extent, America.

"I will not here present a list of his great winners, as that will appear in the catalogue; but as an evidence of the appreciation in which Golden Fern's Lad was held on the Island of Jersey, after his departure therefrom, I append a quotation from a letter written by Mr. John A. Perree, the Secretary from the Island Herd Book Association, to the Jersey Bulletin in this country. This letter was dated January 27, 1902, when Golden Fern's Lad had been some years in England, and when it was never dreamed that he would come to the United States, and was as follows:

"I just want to say what we think of Golden Fern's Lad on the Island. I thought of sending you a list of show and butter test winners sired by this great bull, but out of respect for your valuable space I have not done so.

"No bull, living or dead, can compare with him for having contributed such a large number of show winners in so short a time. I doubt if Golden Lad, with a much longer career, could compare with his double grandson (Golden Fern's Lad) in numbers. How he came to be sold for exportation was accidental.

"His owner and breeder, Mr. P. J. Ahier, of La Ferme, St. Martin, had the misfortune to lose his dam previous to her having been judged in the cow classes and her points recorded. As it was necessary at that time for a bull to be shown with his dam and the points of both totaled, Golden Fern's Lad was debarred from competition at the 'Royal' Show. This explains why no prize 'over the Island' stands to his credit. One enthusiastic gentleman (Mr. Charles Nicolle) who told Mr. Cooper that the Island lost \$50,000 when Golden Fern's Lad was exported, determined to secure this bull for the Island's use, and generously offered a silver cup to the committee of our society 'for an aged bull show with five of his female progeny.' This offer, though much appreciated by the committee, was declined on the plea that the fundamental rules of the society were positive on the way bulls had to be judged (with their dams). Mr. Ahier was a little disappointed, and having a good offer for the bull and considering that he had all his cows in calf by him and a promising successor in Eminent 2d in his stable, sold him.

"By way of illustrating how we prized Golden Fern's Lad, I will mention what occurred about two years ago. A certain local breeder, being under the impression that the importation of cattle into this Island was prohibited by a minute of one of the States committees (there were many of the same opinion), was so confident of having this minute rescinded in regard to Golden Fern's Lad by the mass of evidence he could produce in support of his demand that he inquired a price from the present owner. A price was given, but away in the hundreds (pounds Sterling), yet this did not deter the breeder I refer to. He would have the bull back if he could get it back. He applied to the States committee, when he was informed that the prohibition was due to a permanent law sanctioned by the Queen in council, against which there was no appeal. I happen to know the price Mr. Walker wanted, and, high as it was, I feel it would have been a very remunerative investment if only Golden Fern's Lad could have been got back.

"He was one of the most prepotent sires we have ever seen. I have known cases where bulls have been refused qualification in the Herd Book on account of their dams not having sufficient merit, yet those same cows when bred to Golden Fern's Lad have produced winners at the Island and English shows. As milkers, his daughters are unsurpassed, and I have not known a single poor one among them; on the contrary, I have heard complaints from breeders that they will not go dry, and my own experience confirms their persistency.

"For the last twenty years, at least, no bull has sired stock to sell as readily as that of Golden Fern's Lad."

JOHN A. PERREE."

GOLDEN FERN'S LAD, P. 2160, H. C.

Winner of First prize and Championship at the North Club Show, 1896=97.

Judging by what the sons of Golden Fern's Lad are doing on the Island and in America, and best of all, the great public butter tests that the daughters are making, their great popularity among Island, England and American breeders convinces us that "Golden Fern's Lad" is the most prepotent, most distinguished and preeminent Jersey bull that the world has ever produced. His sons have been winning Champion prizes in the Show Rings last Fall from the Atlantic to the Pacific.

As a successful and prepotent sire, he is without doubt the most famous sire (dead or living) that the Island of Jersey has ever produced. This is endorsed by the best Island breeders.

For a number of years the blood of Golden Fern's Lad has dominated the show and sale rings. The climax was reached last year, when every winning of any consequence, at all the principal Fairs of America, England and the Island was made by a son or a daughter, or a near descendant of Golden Fern's Lad. The record price at auction (\$11,500) was made for a grandson of Golden Fern's Lad and an eight months' old bull calf by him brought \$10,200. At the National Dairy Show, Chicago, the grand champion and junior champion females were daughters of Golden Fern's Lad. The grand champion bull was a grandson, and out of a granddaughter of Golden Fern's Lad. The four prizes for bull and get (the most important of all prizes) all went to Golden Fern's Lad and his close descendants.

Those interested, please read the following list of winners. What would the list of winners be, had he been kept in service on the Island? Instead of doing so, the best of his life was lost in England, where he only had access to a small herd of registered Jerseys.

GOLDEN FERN'S LAD Sired THE FOLLOWING BULLS AND COWS:

- Flying Fox,** First and Champion over the Island, August, 1899; sold at auction for \$7,500. Flying Fox has five tested daughters, averaging 17 lbs. 4 ozs.
- Eminent 2d,** First State's prize over Jersey, for best bull with five of his get, in 1901 and 1902, and Goddington Purse in 1902. He sold for \$10,000 in our 1905 sale and he has ten tested daughters averaging 20 lbs. 4 ozs. each and many more to come. Golden Fern's Lad sired "Golden Jolly," P. 2921, H. C. First prize and Champion, North Show, 1906. He sired the Bronze Medal Winner in the Public Butter Test on the Island, October, 1905, making the phenomenal test of 1 lb. 15 ozs. of butter in 24 hours, after being in milk 159 days, and after first calving. He also had five other daughters in same test, which attracted great attention. If "Golden Jolly" was living and could be sold at our next sale with his daughters, \$15,000 would not be a bad investment.
- Napoleon Bonaparte,** First over Jersey, April, 1899. First over Jersey, August, 1900. Second State's prize with his get, 1901. Goddington Purse, 1901.
- Wellington,** First over Jersey, April, 1900. First prize over Jersey, August, 1901.
- Dreyfus,** First prize over Jersey, April, 1901.
- Leda's Prince,** First prize Tunbridge Wells Show, 1901.
- Chancellor,** First prize and Reserve for Championship, Oxfordshire Show, 1901.
- Crusoe,** First prize Belfast Show, Ireland, 1901.
- Carnation's Fern Lad,** Mr. A. P. Walker, Rushville, Ind., has furnished us with the following list of prizes won by his bull, CARNATION'S FERN LAD. He has six tested daughters averaging 16 lbs. 1½ ozs. First prize and Sweepstakes Bull at Iowa State Fair, 1901. First prize at Minnesota State Fair, 1901. First prize at Wisconsin State Fair, 1901. Headed First prize herd at Iowa and Minnesota State Fairs, 1901. First prize and Sweepstakes Bull at Kentucky State Fair, 1901. Headed First prize herd at Kentucky State Fair, 1902. First and Sweepstakes, Shelbyville, Ky., 1903. First and Sweepstakes Indiana State Fair, 1903. Headed First prize herd, Indianapolis and Shelbyville, 1903.

T. S. COOPER & SONS' AUCTION SALE OF JERSEY CATTLE.

Mr. Walker also adds the following note: "Besides this, in 1901 and 1902 he won several First prizes as 'get of his sire,' being shown with three daughters of Golden Fern's Lad, including the two famous 'black cows' out of Brookhill Rose 2nd. I can not begin to remember all the First prizes won by his get. They have often beaten select rings as 'get of sire,' and most of the young stock I showed in class was of his get. His son, Captain Nick, was a 'sensational' bull in 1904.

"It is hard to beat the Fern's, either in the show ring or at the pail. I have 'pinned my faith' largely to this blood, using outcross to some other branch of the Golden Lad and Wolseley strains. My best milkers have come from that breeding, and I am not ashamed of the young stock that has been bred from Carnation's Fern Lad on Golden Lad Cows."

Golden Fern's Grey Fontaine, First prize and Champion, Brockton, Mass., September, 1906.

Mona's Golden Fern, First and Champion at leading shows through Texas, 1906.

Fontaine's Boyle, First prize at London and Toronto, 1906.

Emanon, Grand Champion Bull at National Dairy Show, Chicago, 1906, and many other prizes.

The owner, after urgent requests, named \$4,000 as a selling price. She was the champion cow of the 1907 show season, winning First prize and Sweepstakes at Nashville. First prize and Sweepstakes at the Illinois State Fair, and First prize and Sweepstakes at the National Dairy Show, Chicago.

Countless other Prizes have been won by the get of Golden Fern's Lad at County Shows on the Island, England and America, and of which space will not allow mention.

T. S. COOPER & SONS' AUCTION SALE OF JERSEY CATTLE.

Bull.

BEATRICE'S GOLDEN FERN, 75350, A. J. C. C.

Bred by T. S. Cooper, Coopersburg, Pa.
Born December 3d, 1906.
Solid color tongue black with white tip; switch black.

Beautiful head, large, prominent eyes; very rich horns; thin neck, strong back with splendid loins; tail beautifully set; neat in bone; body of great depth and width; soft, mellow hide.

Being a son of the illustrious Golden Fern's Lad, and his dam the famous cow Golden Beatrice 2d, we anticipate great results from Beatrice's Golden Fern.

Sire

**Golden Fern's Lad,
P. 2110, H. C.**

1st and Champion at N. C. Show, '98, '97. The most celebrated bull the Island of Jersey has ever produced. His son Flying Fox, sold in our May, '02 sale, for \$7,500. His son Eminent 2d, sold in our May, '05 auction sale for \$10,000. His ten months' old bull calf sold in our May, '07 sale, for \$10,200, and in the same sale his grand son "Stockwell," sold for \$11,500.

Golden Fern's Sen sation won 2d pr at the great St. Louis Show, '04, and sold at auction for \$2,250. His daughter Golden Sultane won third prize at the great St. Louis Show, Sept., '04, and sold in the ring for \$2,350. She has lately been sold for \$4,000. She created a great sensation at the most famous shows in the Fall and won Cham. honors without asking, wherever shown, including the great National D. Show at Chicago. Ten of his get have been sold at an average of \$4,560 each.

Dam

**Golden Beatrice 2d,
102060, A. J. C. C.
P. 8233, H. C.**

Golden Beatrice 2d, is one of the best and handsomest cows ever owned at "Linden Grove." Large and tempting offers have been made for her, but we always refused to name a price on her. She tested May, '04, 2 lbs. 10 ozs. of butter in 24 hours from 48 lbs. of milk, at the rate of 18 lbs. 6 ozs. per week. She can with comfort make 3 lbs. of butter per day. When fresh she has repeatedly given 24 qts. milk per day. Her heifer calf "Eminent's Golden Beatrice" sold in our May, '07, auction sale, for \$1,460, to Mr. Alfred G. Vanderbilt, Newport Rhode Island.

Boyle, P. 1559, H. C. Sire of the celebrated Lull Golden Fern's Lad, P. 2160, H. C. Fontaine 7th, 8th and 9th, all prize winners over the Island. Fontaine 9th milked over 9000 lbs. milk in a year; 41 lbs. 4 ozs. in 24 hours, from which 2 lbs. 10 ozs. of butter was made. Boyle also sired the great cow "Speckled Band," who is dam of "Nursie" that made the phenomenal record of 2 lbs. 7 1/4 ozs. of butter in 24 hours, and won the Silver Medal in Butter Test on the Island, after being in milk 300 days, and within 90 days of calving. Sold at our May, '07 sale, for \$2,200.

Fancy, F. 1324 C

Mr. George Peer has frequently told us that Golden Beatrice 2d appealed to him as the grandest imported Jersey cow he ever saw.

GOLDEN BEATRICE 2d, 162060, A. J. C. C.

(P. 8236, H. C.)

18 lbs. 6 ozs. butter in seven days, 22 to 24 quarts milk per day.

One of the best and handsomest cows ever owned at "Linden Grove." Large and tempting offers have been made for her but we have always refused to name a price on her. She is a daughter of Golden Beatrice, sold in our 1901 sale to Mr. George Vanderbilt, Biltmore, N. C., for \$1,400, and who tested for them 22 lbs. in 7 days; 89 lbs. 5 ozs. in 30 days.

Mr. George E. Peer always told us that Golden Beatrice 2d appealed to him as the best imported cow he ever saw.

Beatrice's Stockwell, 79712 (No. 47 in the sale), a son of Golden Beatrice 2d, by Stockwell, should be one of the great attractions of the sale; and whoever the fortunate buyer is, he will never regret his purchase.

ROYAL MAJESTY, 79313, A. J. C. C.

(Majesty, P. 3523, H. C.)

Royal Majesty is a son of the famous Oxford Lad, P. 3123, H. C. His dam is the well-known butter test cow, Oxford Ixia 3d, P. 8584, H. C. She won the following prizes in the public butter tests on the Island :

Silver Medal, October, 1903, 2 lbs. 1½ ozs., 235 days in milk.

Bronze Medal, May, 1904, 2 lbs 15½ ozs., 94 days in milk, and a number of other butter test prizes. She was sold at a long price to Dr. Watney, England, who only buys big butter test cows.

Her dam, Oxford Ixia, P. 7100, H. C., made the following tests:

Bronze Medal, March, 1900, 2 lbs. 8 ozs., 70 days in milk.

Certificate of Merit, May, 1900, 1 lb. 15¼ ozs., 127 days in milk.

Certificate of Merit, May, 1901, 2 lbs. 1¼ ozs., 147 days in milk.

Certificate of Merit, March, 1902, 2 lbs. 5¼ ozs., 48 days in milk.

Certificate of Merit, May, 1902, 2 lbs 6½ ozs., 99 days in milk

Certificate of Merit, May, 1903, 2 lbs. 2¼ ozs., 49 days in milk.

Oxford Ixia, P. 7100, H. C., will be shown with her grandson Majesty in the ring.

Royal Majesty should have remained on the Island several years longer, then his value as a sire would have been more appreciated. His daughter, Majesty Lady Houpla, is the highest priced animal in the 1907 importation and she needs only to be seen to be appreciated. Bred in such great butter families, Royal Majesty will in a few years be as popular as a successful sire as other great bulls that we have imported.

T. S. COOPER & SONS' AUCTION SALE OF JERSEY CATTLE.

C Bull. ROYAL MAJESTY, 79313, A. J. C. C. (Majesty, P. 3523, H. C.)

Bred by Charles Mourant, St. Saviour, Island of Jersey.

Born February 28th, 1903.

Imported by T. S. Cooper & Sons, October 8th, 1907.

Solid color; black tongue and switch.

The following description of Royal Majesty, by so well known expert judge as Mr. Valency E. Fuller will bear the closest of criticism.—T. S. C.

"By the side of Lucy's Champion stood Royal Majesty, a dark bull, with dappled stars. He is very properly named, for he is majestic in his carriage. He has just as beautiful a head as his stable companion, which is exceedingly dished, with large, prominent eyes. His neck is long and thin, as is his wither, which is wedge-shaped looking from the top. He has an excellent rump and loins and is strong in the back. His body is very deep, especially at the flank and he is well ribbed. He is wonderfully short legged; his tail is well set on, long and thin; his hide shines like satin; he is very deep, a bull of great constitution yet exceedingly rich, very stately in carriage, with an uplifted head; a bull who shows unusually well.

Some of his get in milk were pointed out to me, and a wonderfully handsome lot they are, very beautiful, very showy, and yet with every indication of dairy capacity. From what we saw of his get, it is very evident that he is a very prepotent bull, and ought to prove good enough to head any herd and add lustre to it."

T. S. COOPER & SONS' AUCTION SALE OF JERSEY CATTLE.

D Bull. IMPORTED STOCKWELL, 75264, A. J. C. C.

(Highly Commended Bull, Stockwell, P. 3550, H. C.)

Sold in our May, 1907 Auction Sale, for \$11,500 to Hon. A. B. Lewis, Fredericksburg, Va.

Bred by Philip I. Ahier, St. Martin, Island of Jersey.

Born March 8th 1903.

Imported by T. S. Cooper & Sons, September 25th, 1906.

Solid color; black tongue and switch.

Stockwell must be seen to be appreciated. He is very aristocratic in his carriage, this comes to him by inheritance; he swings his beautiful head so becoming to his breeding; he has large, sparkling eyes; very rich horns; broad forehead; beautiful neck; strong, straight back; best of withers; very broad hips; extra length from hips to setting of tail, which is long and thin, with splendid switch; very neat in bone; skin very rich, thin, soft and mellow as a mole's; grand wedge-shaped body of great depth and width; large and beautifully placed rudimentaries.

Stockwell, P. 3550, H. C., is one of the most sensational bulls imported for years. He inherits from his illustrious dam and sire, dairy qualities of untold merit, as well as show yard excellence, approached by none. He comes from a family to which we have pinned our faith for many years.

T. S. COOPER & SONS' AUCTION SALE OF JERSEY CATTLE.

Bull.

EMINENT, 69631, A. J. C. C.

(Eminent 2d, P. 2532, Highly Commended, J. H. B.)

(FOR REFERENCE ONLY.)

Bred by Philip J. Ahier, St. Martin, Island of Jersey.

Born January 3d, 1897.

Imported by T. S. Cooper & Sons, September 27th, 1904

Solid color, black tongue and switch

Of lofty carriage and aristocratic appearance His get entitles him to this privilege. He carries an exceedingly handsome head, with large, prominent eyes; short, rich, amber horns; dished face; beautiful neck, best of withers; long, strong, straight back, broad hips, well set tail thin and finely tapered, with magnificent switch neat in bone; hide like his "Dady," rich rose and soft as a mole's. Lady of enormous depth and width rudimentaries as large as old Pedro's and beautifully-placed.

Eminent 2d is without any exception the handsomest and most typical dairy bull we have ever seen. Where is there another bull that can claim the distinction of being sire of five of the best females shown at the Royal Show over the Island for two years in succession and at the same time being good enough to be shown in the best company himself.

Eminent 2d, when sold at auction three years ago, for \$10,000, was considered a very cheap bull. What would he bring at our sale this year, after a prospective buyer had seen his daughters that we intend to sell?

Eminent 2d sold in our May, 1905 sale, for \$10,000. He is now owned by Hon A. M. Bowman, Salem, Va.

Sire

Golden Fern's Lad,
P. 160, H. C.

1st and Champion at N. C. Show, '96, '97. The most celebrated bull the Island of Jersey has ever produced. His son, Flying Fox sold in our May, '02 sale, for \$7,500. His son Eminent 2d, sold in our May, '05, auction sale, for \$10,000. His ten months' old bull calf sold in our May, '07 sale, for \$10,200 and in the same sale his grandson "Stockwell," sold for \$11,500. Ten of his get have been sold at an average of \$4,560.

His five tested daughters averaged 18 lbs. 5½ ozs. each. His two (2) best daughters in the Public Butter Test are Freedom, 2 lbs. 10 ozs. of butter in 24 hours at the Tring Show Ring, England, being 140 days in milk.

Gold Mine won Gold Medal, Tunbridge Wells, England, 2 lbs. 7 ozs. of butter in 24 hours, being in milk 150 days.

The above tests were made in the midst of all the usual lustle of a fair ground, and under strict supervision. If in a quiet stable at home there is no reason to doubt that each could have made at least 6 ozs. (Perhaps much more.)

His son Eminent 2d, has 10 tested daughters, averaging 20 lbs. 4 ozs. each.

His son, Flying Fox, has five tested daughters, averaging 17 lbs. 4 ozs.

Boyle, P. 1559, H. C. Sire of the celebrated bull Golden Fern's Lad, P. 2160, H. C. Fontaine 7th, 8th and 9th, all prize winners over the Island. Fontaine 9th, milked over 9,000 lbs milk in a year. 41 lbs 4 ozs in 24 hours, from which 2 lbs. 10 ozs. butter was made.

He also sired the great cow "Speckled Band," dam of the wonderful cow, "Nursie," that made the phenomenal record of 2 lbs. 7½ ozs. of butter in 24 hours, and won the Silver Medal in the public butter test on the Island, after being in milk 300 days, and within 90 days of calving. She sold in our May, '07 sale, for \$2,200 to Mr. A. B. Lewis.

Everton King, P. 390, C., was a remarkable sire of grand cows of magnificent dairy type, inheriting the same from his illustrious dam Quality, who won first prize and Champion Cup at the Royal Show, 1882, and made 16 lbs. 8 ozs. of butter. Twenty-five years ago, when on the Island, I was so taken with her that I bought, at a long price, her son, Everton King, P. 390, C., and left him on the Island to be bred to my cows before shipment to America. Quality is also dam of the great bull Happy, F. 309, C., that left a grand lot of dairy cows on the Island—T. S. C.

EMINENT 2d, P. 2532, H. C.

Sired by Golden Fern's Lad, P. 2160, H. C.

Sire of ten tested daughters averaging 20 lbs. 4 ozs. in seven days.

Eminent 2d had the honor of winning first States prize over the Island in 1901 and 1902 for the best bull to be shown with five of his registered daughters in milk. This highly prized award shows that Eminent 2d is not only an excellent individual but a sire of cows of the best dairy type. We will sell such a splendid lot of cows sired by him in this sale as to convince all of his great prepotency not only in producing cows of excellent show-ring qualities but animals of the best dairy conformation, with large, well-shaped udders and good teats that are beautifully placed.

Amongst many other prize winners, he is sire of the following butter tested cows :

Eminent's Evasion, 24 lbs. 5 ozs.
Eminent's Snow, 24 lbs. 6 ozs.
Eminent's Fawn Beauty, 20 lbs. 12 ozs.
Lady Eminent, 20 lbs. 11 ozs.
Eminent's Jewel, 20 lbs. 6 ozs.
Eminent's Lady Sultane, 20 lbs. 2 ozs.
Eminent's Eminence, 19 lbs. 2 ozs.
Rosefern Rosebud, 17 lbs. 7 ozs.
Eminent's Brown Princess, 17 lbs. 7 ozs.
Eminent's Buttercup, 17 lbs. 6 ozs.

Eminent 2d was sold in our May, 1905 sale, for \$10,000. He is now owned by the Hon. A. M. Bowman, Salem, Va.

F Bull.**VIOLA'S GOLDEN JOLLY, 79314, A. J. C. C.**

Bred by J. W. Le Boutillier, St. Ouen, Island of Jersey.
Born March 22d, 1904.
Imported by T. S. Cooper & Sons, October 8th, 1907.

Solid color; black tongue and switch.

The following description of Viola's Golden Jolly, by so great an expert judge as Mr. Valency E. Fuller will carry conviction. T. S. C.

"Here is a bull that will suit the most fastidious judge. He is one of the handsomest bulls I have seen for many a day, clean cut as possible, yet exceedingly long and very deep, especially at flank. His head is simply beautiful, very much dishd, with prominent eyes, and as he was led out he carried his head up as if he knew we would admire him. He has a wonderfully long, clean neck, a perfect wither; is deep through the heart and has a back to tail setting that defies criticism. He is splendidly ribbed, is short legged and has a great paunch. He is well cut out behind, his hide is like shiny satin, is soft and mellow and yet shows plenty of circulation of blood. His thighs are flat and he has a good arch behind. He is wonderfully handsome, with grand carriage, exceedingly rich, and a bull that would impress anyone with his perfect individuality."

T. S. COOPER & SONS' AUCTION SALE OF JERSEY CATTLE.

H Bull.

NOBLE OF OAKLAND'S, P. 3909, H. C.

(FOR REFERENCE ONLY.)

FIRST PRIZE ST. SAVIOUR, 1907.

Bred and owned by Mr. John A. Perree, Oaklands, St. Saviour, Island of Jersey.

The most popular bull now on the Island. We have been informed by reliable parties that Mr. Perree has refused \$10,000 for him.

Sire Blue Belle's Blue Fox, P. 3633, H. C.

A very promising sire and great show bull. He was sold at Mr. D. S. Williams sale, Nashville, Tenn., Dec., '07, to Mr. Harry Prentice, Worcester, Mass., for \$1,025, who was offered a large advance in price right after the sale. He was shown at the Nashville, Tenn. show, Oct. '07, in a class where the Champion bull of the year was shown and Prof. Scovell, who had handed out the Champion ribbons at the shows, "had" he been Judge at Nashville. Blue Belle's Blue Fox would have been Champion."

Imported Blue Belle, 180234, A. J. C. C.
(Blue Belle, P. 4307, H. C.)

Sold in our May, 1904, auction sale, to Mr. Howard Willets, "Gedney Farm," White Plains, N. Y., for \$3,600. Dam of Caumais Lad, P. 2257, H. C., sire of Financial King, P. 2624, H. C., and Guenon's Lad, both noted sires. Dam of Blue Nun, 18 lbs 5 1/2 ozs. Dam of Golden Lad's Blue Belle, sold in our May, 1903 sale, for \$1,725. Dam of Blue Belle 6th and 7th and of Blue Belle's Handsome Fox. Also dam of Blue Belle's Golden Fern, 69196 that sold as a calf for \$3,000. Blue Belle has the distinction of being "courted" by the best breeders in England and America, among them lords and American millionaires, and the day she left the Island it was one of sorrow for those who loved her so well, as she had brought them many pounds sterling, not only for her offspring, but for her gilt-edged butter which sold weekly at the top price in the St. Helier market.

Dam Lady Viola, P. 3463, H. C.

The highest priced and most sensational cow now on the Island or in England.

She won 1st prize over Jersey, '04, won in Public Butter Test, May, '04 2 lbs. 12 ozs.

1st pr. over Jersey and Theatre Cup, May, '05.

1st pr. Sweepstakes and Champion, St. Saviour and Grouville Shows, '05.

1st ov. England where ever exhibited, '06, and '07.

Champion over all England, '07.

1st pr. for butter tested cows, Aug., '07.

Lady Viola is dam of Noble of Oaklands, also dam of Miss Viola, P. 9644, H. C. that tested in Public Butter Test, May, '05, 2 lbs. 15 ozs. Also dam of Willoh's Rosy, P. 10444, H. C., that tested in Public Butter Test, 3 lbs. of butter. Dam of Poppy's Viola, P. 10902, H. C.

Bobby's Shy Fox, 64760, A. J. C. C. Shy Fox, P. 3143, H. C. Champion winner at St. Saviour and Grouville Shows, Island of Jer., '02. First and Championship Ohio and Illinois State Fairs, '03.

Blue Belle, P. 4307, H. C.
(See below.)

Nobleman, P. 2555, H. C. 3d ov. Jer. and Par. pr., April, '98. 1st ov. Jer., Aug., '98. Reserve over Jersey and Par. pr., '00. 1st at three Parish Shows, 1899.

Sire of Nobleman's Lady Mary, Sold in our May, 1902 sale, to J. A. Middleton, Shelbyville, Kentucky, the unbeaten Champion of many shows.

Bagatelle 2d, P. 6564, H. C., now named Golden Lad's Victoria, 157325, and sold in our May, '01 sale for \$745. She is full sister to Golden Lad's Fawn Duchess, that tested 23 lbs. 6 ozs. She was sold in our 1902 sale, to Col. M. C. Campbell, Nashville, Tenn.

Champion Flying Fox, 61441, A. J. C. C. Flying Fox, P. 2729, H. C.

Champion winner over the Island, August, '99. Sold at our auction sale May, '02, for \$7,500. In same sale three of his heifers on first calf averaged \$933.

Sire of Fox Glove that tested in Public Butter Test on the Island 2 lbs. 8 1/2 ozs. in 24 hours also Oxford Vixen that tested 2 lbs. 2 1/2 ozs.

Flying Fox's Rowena, 17 lbs. 2 1/2 ozs.

Flying Fox's Pearl, 15 lbs 7 ozs.

Flying Fox's Brown Belle, 15 lbs 3 ozs. His son Sam Loates, sired Reindeer, Bronze Medal winner public butter test, October, 1907. 1 lb. 13 1/2 ozs. 161 days in milk.

Venus Violet, P. 3946, H. C. A magnificent dairy cow, milking 20 quarts daily.

Bobby, P. 208, H. C., inherits through his dam the blood of Mr. Arthur's famous Roses. This family has won many honors in the show ring, and they are noted for their uniform quality and great ability as butter producers. They inherit these qualities from a long line of noted ancestors among which are Orange Peel, 129; Clement, 61; old Noble; Cowslip, 330; Rose, 339; Forget-me-not, 333—all of which were great prize winners and heavy butter-making cows, or the sires and dams of such. The blending of Coomassie and Young Rose blood has been through Bobby, productive of most excellent results, and their descendants have always found a ready sale and commanded liberal prices.

Aristocrat, P. 2280, H. C. 1st over Jersey '98. 1st and Sweepstakes three Parish Shows 1897.

Aristocrat is a son of the famous show and butter cow "Nameless," and he is already showing his worth as a sire of cows that are a credit to his illustrious dam. He is sire of Aristocratic Beauty, that won the Silver Medal in the public butter test on the Island, testing 2 lbs. 10 1/2 ozs in 24 hours, being in milk at time of test 121 days. She sold in our May, 1906 sale, for \$1,100.

Sire of the great bull Majesty and many other 1st prize winners.

Lucy Belle,
F. 8962, H. C.
Lucy Belle is a daughter of the great Eminent 2d, P. 2532, H. C. She is now named "Eminent's Lucy Belle," 203639, A. J. C. C. She was sold in our May, 1907, sale for \$1,100, to Mr. A. B. Lewis. She appealed to us as one of the greatest dairy cows we have ever seen, and at time of calving her udder was the largest and most perfect of any we have ever seen, measuring around the udder 78 inches and teats five inches apart.

Champion Flying Fox,
61441, A. J. C. C.
Flying Fox,
P. 2729, H. C.
Champion winner over the Island, August, '09. Sold at our auction sale May, '02, for \$7,500. In same sale three of his heifers on first calf averaged \$933.

Sire of "Fox Glove" that tested in public butter test on the Island 2 lbs. 8½ ozs. in 24 hours; also Oxford Vixen that tested 2 lbs. 2½ ozs. Fox's Belle of Grouville, 21 lbs. 3 ozs. Fox's Belle of Trinity, 20 lbs. ½ oz.

At the great St. Louis Show, Sept. '04, in the bull and progeny class (23 entries) the 2d, 3d and 4th prizes were won by the get of Flying Fox. At our 1904 May sale nineteen of the get of Flying Fox averaged \$635.77.
His son, Sam Loates, sired Reindeer, bronze medal winner public butter test, October, 1907, 1 lb. 13½ ozs. 161 days in milk.

Oxford Lass,
P. 3585, C.
One of the most celebrated cows the Island ever produced.

Some years ago while on the Island we called to see Oxford Lass, having been told it would be hard to find her equal in Jersey. Nothing could tempt the owner to name a price on her, and he finally told us that if he sold the cow, he also would have to leave the Island. She has milked as high as 28 quarts daily, and her milk veins and udder were a sight to see. We were so much impressed with her that we went to see her several times. Her daughter, Oxford Ixia, tested on the Public Fair Grounds 2 lbs. 13 ozs. in 24 hours. She is also dam of Golden Queen of St. Saviour, 149137, A. J. C. C., that tested in Public Butter Test, 2 lbs. 1½ ozs. in 24 hours, 214 days in milk. She is also dam of Flying Fox's Oxford Lass, 1st prize winner over the Island, August, 1903, in a large class. Also dam of Caiest, P. 2591, H. C., Houph La, P. 2793, H. C. and Oxford Lad, P. 3123, H. C. Three celebrated sires, the latter winning 1st prize at St. Saviour Show, 1892.

Golden Fern's Lad,
P. 2160, H. C.
1st and Champion at N. C. Show, '96, '97.
The most celebrated bull the Island of Jersey has ever produced. His son Flying Fox sold in our May, 1902, sale for \$7,500. His son Eminent 2d sold in our May, 1905, auction sale for \$10,000. His ten months' old bull calf sold in our May, 1907, sale for \$10,200, and in the same sale his great grandson "Stockwell" sold for \$11,500.
Ten of his get have been sold at an average of \$4,560.
His sons and daughters have been winning 1st prizes and Grand Champion honors from the Atlantic to the Pacific. Golden Fern's Lad is recognized the world over as the most prepotent sire that the world has ever produced. They are not only winners in the show ring, but in the public butter tests as well.

1st pr. in Champion Class at St. Saviour and Grouville Shows, 1901.

Golden Fern's Lad, P. 2160, H. C.

The most celebrated bull the Island of Jersey has ever produced. His son Flying Fox sold in our May, '02, sale for \$7,500. His on Eminent 2d, sold in our 1905 auction sale for \$10,000.

His ten months' old bull calf sold at our '07 sale for \$10,200.

Golden Fern's Sensation won 2d prize at the great St. Louis Show in '04, and sold at auction for \$2,250.

His daughter Golden Sultane won 3rd pr at the great St. Louis Show, Sept 1904, and sold in the ring for \$2,350. Ten of his get have been sold at an average of \$4,560.

Sultane 9th, P. 1145, H. C. 2d over Jersey, '85. 1st H. B. over Jer., '85. 4th over Jersey, '89.

1st over Jersey and Parish prize, '91. Dam of Uncle Peter, P. 2115, H. C.

Golden Fern's Lad, P. 2160, H. C.

Judging by what the sons of Golden Fern's Lad are doing on the Island and in America, and best of all, the great public butter tests that the daughters are making, their popularity among Island, England and American breeders, convinces us that "Golden Fern's Lad" is the most prepotent, most distinguished and pre-eminent Jersey bull that the world has ever produced.

Rosette 5th, P. 2881, H. C., now named

T. S. COOPER & SONS' AUCTION SALE OF JERSEY CATTLE.

No. 6. Heifer.

"SULTAN'S MABEL,"

213976, A. J. C. C.

Bred by Mr. Wm. J. Labey (Father of the great Fontaine family), Grouville, Island of Jersey.

Born April 17th, 1906.

Imported by T. S. Cooper and Sons, October 8th, 1907.

White on left of forehead, barrel and right of croup and four legs; switch, white.

A grand heifer with nice head and eyes; very strong, straight back, with very broad hips; best of loins; magnificent body of great depth and width; extraordinary udder development running way to the front, with large and beautifully-placed teats.

In the pedigree of "Sultan's Mabel," from beginning to end, will be found the very "cream" of Island breeding. We doubt if another animal in this entire sale can show in its pedigree such rich breeding and so large a number of Highly Commended animals. What a chance to procure a "Corner Stone" upon which to build a great herd and from which nothing but great results and pleasure can be expected.

Sire

Marcus,

P. 2461, H. C.

No. 7. Heifer.

SULTAN'S SWEET VERNAL, 213992, A. J. C. C.

Bred by Philip Renouf, St. Martin, Island of Jersey.
Born November 12th, 1906.
Imported by T. S. Cooper and Sons, October 8th, 1907.
Solid color.
Nice heifer, with handsome head, broad forehead; strong, straight back; splendid withers; best of loins; broad hips; well-set tail, with splendid switch; neat in bone; body of great depth and width; magnificent udder development running well to the front, with large and beautifully-placed teats.
A very handsome heifer by a great sire and out of a great dam.

Sire
Sultan of
Oaklands,
P. 3746, H. C.

Bred by Mr. John A. Perce, "Oakland's," St. Saviour, Island of Jersey.
1st pr. winner over the Island, April, 1906.
1st prize, Sweepstakes, Breeder's Cup, and Reserve Champion, St. Saviour and Grouville Shows, 1905.
He was sold at the highest price ever paid on the Island for a bull. He is now at the head of the Penshurst Herd, at Narberth, Pa., owned by Mr. Percival Roberts. Although the price was high, Island breeders lost more than ten times that amount by allowing the Sultan to leave the Island. His get in years to come will create a sensation. At our last sale six females sired by him, none over 15 months old, averaged \$434.16.
Sultane's Snowdrop (the dam of Sultan of Oaklands) is a full sister to the famous cow Golden Sultane, one of the main winners at the great World's Fair held at St. Louis. She sold at our auction sale as a two year old for \$1,600, at the World's Fair she sold for \$2,350, and within the last ten months she and her bull calf by Oxford Lad have been repurchased for the "Linden Grove" herd at \$4,025. "Blood will tell."

SULTAN'S DELIGHT, 213971, A. J. C. C.

Bred by W. Gaudin Renouf, St. Martin, Island of Jersey.
Born March 13th, 1906.
Imported by T. S. Cooper and Sons, October 8th, 1907.

White on forehead, right stifle and white on right and left shoulder.

Nice head, with thin, long neck; strong, straight back; best of loins; very broad hips; wide and deep body; very thin, loose, mellow hide; grand udder development, with large and well-placed teats.

Sire
Sultan of
Oaklands,
P. 3746, H. C.

Bred by Mr. John A. Perree, "Oaklands," St. Saviour, Island of Jersey.

1st prize winner over the Island, April, 1906.

1st prize, Sweepstakes, Breeder's Cup, and Reserve Champion, St. Saviour and Grouville Shows, 1905.

Sultan of Oaklands was sold at the highest price ever paid on the Island for a bull. He is now at the head of the Penshurst Herd, Narberth, Pa., owned by Mr. Percival Roberts. Although the price paid was high, Island breeders lost more than ten times that amount, by allowing the Sultan to leave the Island. His get in years to come, will create a sensation. At our last sale six females sired by him, none over 15 months old, averaged \$434.16.

Sultane's Snowdrop (the dam of Sultan of Oaklands) is a full sister to the famous cow Golden Sultana, one of the main winners at the great World's Fair held at St. Louis. She sold at our auction as a two-year-old for \$1,600. At the World's Fair she was sold for \$2,350, and within the last ten months she and her bull calf by Oxford Lad, have been repurchased for the "Linden Grove Herd" at \$4,025. "Blood will tell."

See opposite page, No. 10, for full pedigree of Sultan of Oaklands.

Sire

Sultan of
Oaklands,
P. 3746, H. C.

Bred by Mr. John A. Perree, "Oaklands," St. Saviour, Island of Jersey.

1st prize winner over the Island, April, 1906.

1st prize, Sweepstakes, Breeder's Cup, and Reserve Champion, St. Saviour and Grouville Shows, 1905.

Sultan of Oaklands was sold at the highest price ever paid on the Island for a bull. He is now owned, and stands at the head of the Penhurst herd, Narberth, Pa., owned by Mr. Percival Roberts. Although the price was high, Island breeders lost more than ten times that amount by allowing the Sultan to leave the Island. His get in years to come will create a sensation. At our last sale six females sired by him, none over 15 months old, averaged \$434.16.

Sultane's Snowdrop (the dam of Sultan of Oaklands) is a full sister to the famous cow Golden Sultana, one of the main winners at the great World's Fair held at St. Louis. She sold at our auction sale as a two-year-old for \$1,600; at the World's Fair she sold for \$2,350; and within the last ten months she and her bull calf by Oxford Lad have been repurchased for the "Linden Grove" Herd at \$4,025. "Blood will tell."

Sire

Sultan of Oaklands,
P. 3746, H. C.

Bred by Mr. John A. Perree, "Oaklands," St. Saviour, Island of Jersey.

1st prize winner over the Island, April, 1906.

1st prize, Sweepstakes, Breeder's Cup, and Reserve Champion, St. Saviour and Grouville Shows 1905.

Sultan of Oaklands was sold at the highest price ever paid on the Island for a bull. He is now pined, and stands at the head of the Penhurst herd, Narberth, Pa., owned by Mr. Percival Roberts. Although the price was high, Island breeders lost more than ten times that amount by allowing the Sultan to leave the Island. His get in years to come will create a sensation. At our last sale six females sired by him, none over 15 months old, averaged \$434.16.

Sultane's Snowdrop (the dam of Sultan of Oaklands) is a full sister to the famous cow Golden Sultana, one of the main winners at the great World's Fair held at St. Louis. She sold at our auction sale as a two-year-old for \$1,600; at the World's Fair she sold for \$2,350, and within the last ten months she and her bull calf by Oxford Lad have been repurchased for the "Linden Grove" Herd at \$4,025. "Blood will tell."

Sire

Sultan of Oaklands,
P. 3746, H. C.

Bred by Mr. John A. Perree, "Oaklands," St. Saviour, Island of Jersey.
1st prize winner over the Island, April, 1906.

1st prize, Sweepstakes, Breeder's Cup, and Reserve Champion, St. Saviour and Grouville Shows, 1905.

Sultan of Oaklands was sold at the highest price ever paid on the Island for a bull. He is now owned, and stands at the head of the Penhurst herd Narberth, Pa., owned by Mr. Percival Roberts. Although the price was high, Island breeders lost more than ten times that amount by allowing the Sultan to leave the Island. His get in years to come will create a sensation. At our last sale six females sired by him none over 15 months old, averaged \$434.16.

Sultane's Snowdrop (the dam of Sultan of Oaklands) is a full sister to the famous cow Golden Sultana, one of the main winners at the great World's Fair held at St. Louis. She sold at our auction sale as a two-year-old for \$1,600; at the World's Fair she sold for \$2,350; and within the last ten months she and her bull calf by Oxford Lad have been repurchased for the "Linden Grove." Herd at \$4,025 "Blood will tell."

See No. 6 for full pedigree of Sultan of Oaklands

Golden Fern's Lad, P. 2160, H. C.

1st and Champion at N. C. Show, '96, '97.

The most celebrated bull the Island of Jersey has ever produced. His son Flying Fox sold in our May, 1902, sale for \$7,500. His son, Eminent 2nd, sold in our May, 1905 auction sale for \$10,000. His ten months' old bull calf sold in our May, 1907, sale for \$10,000, and in same sale his grandson "Stockwell" sold for \$11,500.

Ten of his get have been sold at an average of \$4,560. His sons and daughters have been winning first prizes and Grand Champion honors from the Atlantic to the Pacific. Golden Fern's Lad is recognized the world over, as the most prepotent sire that the world has ever produced. They are not only winners in the show ring, but in the public butter tests as well.

Sold in our May, 1904, auction sale, to Mr. Howard Willets, "Gedney Farm," White Plains, N. Y., for \$3,600. Dam of Caumais Lad, P. 2257, H. C. sire of Financial King, P. 2624, H. C., and Guenon's Lad, both noted sires. Dam of Blue Nun, 18 lbs. 5½ ozs. Dam of Golden Lad's Blue Belle, sold in our May, 1903 sale, for \$1,725. Dam of Blue Belle 6th and 7th and of Blue Belle's Handsome Fox. Also dam of Blue Belle's Golden Fern, 69196, that sold as a calf for \$3,000. Blue Belle has the distinction of being "courted" by the best breeders in England and America, among them lords and American millionaires, and the day she left the Island it was one of sorrow for those who loved her so well, as she had brought them many pounds sterling, not only for her offspring, but for her gilt-edged butter which sold weekly at the top price in the St. Helier market.

No. 15½. Heifer Calf, WARDER'S QUEEN, 214206, A. J. C. C.

Bred by Phillip Ozouf, St. Saviour, Island of Jersey. Born February 10th, 1908. Imported (in dam) October 8th, 1907. Solid color except little white left side of tongue. Sire Warder's Victor, P. 4013, H. C., who is by General Warder, P. 3681, H. C. First prize winner over the Island, 1905, he by Warder, P. 3227, H. C. grandson of Eminent 2d, out of a highly commended daughter of Hamley, P. 2637, H. C. Dam of Warder's Victor, is Rozels Victory, P. 7594, H. C., a magnificent daughter of Golden Fern's Lad, and now in the "Linden Grove" herd. Dam of No. 15½ is Financial Jovial, No. 15. See above.

Bred by W. J. Mallett, St Saviour, Island of Jersey.

Boru April 2d, 1904.

Imported by T. S. Cooper & Sons, Oct. 8th, '07.

Solid color; black tongue and switch.
"Lucy's Champion" need only to be seen to be admired. In color he is a beautiful dark silver grey, with magnificent mien. He swings one of the handsomest heads ever seen on a bull, with horns as rich as gold; large, prominent eyes; thin, long neck; very long, strong, straight back; best of loins; broad hips; beautiful setting of tail which is thin and long, with splendid switch; neat in bone; thin, sharp withers; wedge-shaped body of great depth and width; soft, rich, mellow hide. Altogether his form is symmetrical and highly finished, and his general appearance indicative of the highest order of quality and great constitutional stamina, and he is worthy to head any herd in the country. His breeding and individual excellence is all that any breeder could wish for. As for a sire his get will show for themselves day of sale.

Oxford Lass, P. 3585, C.
One of the most celebrated cows the Island ever produced.

Some years ago while on the Island we called to see Oxford Lass, having been told it would be hard to find her equal in Jersey. Nothing could tempt the owner to name a price on her, and he finally told us that if he sold the cow, he also would have to leave the Island. She has milked as high as 28 quarts daily, and her milk veins and udder were a sight to see. We were so much impressed with her that we went to see her several times. Her daughter, Oxford Ixia, tested on the Public Fair Grounds 2 lbs. 13 ozs. in 24 hours. She is also dam of Golden Queen of St. Saviour, 149137, A. J. C. C., that tested in Public Butter Test, 2 lbs. 1½ ozs. in 24 hours, 214 days in milk. She is also dam of Flying Fox's Oxford Lass. 1st prize winner over the Island, August, 1903, in a large class. Also dam of Caiest, P. 2591, H. C., Houp La, P. 2793, H. C. and Oxford Lad, P. 3123, H. C. Three celebrated sires the latter winning 1st prize at St. Saviour Show, 1892.

Golden Fern's Lad, P. 2160, H. C.
1st and Champion at N. C. Show, '96, '97.
The most celebrated bull the Island of Jersey has ever produced. His son Flying Fox sold in our May, 1902, sale for \$7,500. His son Eminent 2d sold in our May, 1905, auction sale for \$10,000. His ten months' old bull calf sold in our May, 1907, sale for \$10,200, and in the same sale his grandson "Stockwell" sold for \$11,500.
Ten of his get have been sold at an average of \$4,560.
His sons and daughters have been winning 1st prizes and Grand Champion honors from the Atlantic to the Pacific.
Golden Fern's Lad is recognized the world over as the most prepotent sire that the world has ever produced. They are not only winners in the show ring, but in the public butter tests as well.

'The making of a great cow'

Sire

Lucy's Champion,
P. 3731, H. C.

Reserve over Jersey, August, 1905.

Sweepstakes winner Western Shows, '06.

Champion winner Western Shows, April, 1907.

A very valuable sire. When on the Island last fall, the venerable breeder, Mr. Francis Le Brocq told us that in Lucy's Champion we were getting the best bull that had been in their district for many years.

Oxford Lad,

P. 3123, H. C.

Sweepstakes over St. Saviour and Grouville Shows, April, 1903.

1st State's prize over the Island, April, 1903.

Champion St. Saviour and Grouville Shows, 1905.

Full brother to Flying Fox's Oxford Lass that won first prize over the Island, August, 1903.

He is sire of cow "Distinction Queen" that won first prize over the Island, also Blythwood Bowl, Aug., '06, and many other prize winners.

Lucy 18th, 1st over Jersey '07, and Reserve for Blythwood Bowl, and one of group of four winning the President's Cup Aug. '07.

Oxford Ixia 6th, Reserve over Jer., and tested in public butter test, 1 lb. 14 ozs., 145 days in milk; she is a full sister to bull Majesty.

Oxford Buttercup, Certificate in public butter test, 1 lb., 11 ozs., 146 days in milk.

Oxford Lad sired the great bull Majesty, and Lucy's Champion, both in this importation, he also sired the bull calf Sultan's Oxford Lad, sold at the Gedney Farm sale, May, '07, for \$1,025. In five years time from now many sensational animals will make their appearance sired by Oxford Lad.

Lucy Belle,

F. 8962, H. C.

Lucy Belle is a daughter of the great Eminent 2d, P. 2532, H. C. She is now named "Eminent's Lucy Belle," 203639, A. J. C. C. She was sold in our May, 1907, sale for \$1,100, to Mr. A. B. Lewis. She appealed to us as one of the greatest dairy cows we have ever seen, and at time of calving her udder was the largest and most perfect of any we have ever seen, measuring around the udder 78 inches and teats five inches apart.

At the great St. Louis Show, Sept. '04, in the bull and progeny class (23 entries) the 2d, 3d and 4th prizes were won by the get of Flying Fox. At our 1904 May sale nineteen of the get of Flying Fox averaged \$635.77.

His son, Sam Loates, sired Reindeer, bronze medal winner public butter test, Oct. '07, 1 lb. 13½ ozs. 161 days in milk.

Golden Fern's Lad,

P. 2160, H. C.

1st and Champion at N. C. Show, '96, '97.

The most celebrated bull the Island of Jersey has ever produced. His son Flying Fox sold in our May, 1902, sale for \$7,500. His son Eminent 2d sold in our May, 1905, auction sale for \$10,000. His ten months' old bull calf sold in our May, 1907, sale for \$10,200, and in the same sale his grandson "Stockwell" sold for \$11,500.

Ten of his get have been sold at an average of \$4,560.

His sons and daughters have been winning 1st prizes and Grand Champion honors from the Atlantic to the Pacific. Golden Fern's Lad is recognized the world over as the most prepotent sire that the world has ever produced. They are not only winners in the show ring, but in the public butter tests as well.

This family has won many honors in the show ring, and they are noted for their uniform quality and great ability as butter producers. They inherit these qualities from a long line of noted ancestors, among which are Orange Peel, 129; Clement, 61; old Noble; Cowslip, 330; Rose, 339; Forget-me-not, 338—all of which were great prize winners and heavy butter-making cows, or the sires and dams of such. The blending of Coomassie and Young Rose blood has been through Bobby, productive of most excellent results, and their descendants have always found a ready sale and commanded liberal prices.

Judging by what the sons of Golden Fern's Lad are doing on the Island and in America, and best of all, the great public butter tests that the daughters are making, their great popularity among Island, England and American breeders, convinces us that "Golden Fern's Lad," is the most prepotent, most distinguished and preeminent Jersey bull that the World has ever produced. His sons have been winning Champion Prizes in the Show Rings last Fall from the Atlantic to the Pacific.

If his son "Golden Jolly" was living and could be sold at our next sale with his daughters, \$15,000 would not be a bad investment

Golden Fern's Lad, P. 2160, H. C.

Judging by what the sons of Golden Fern's Lad are doing on the Island and in America, and best of all, the great public butter tests that the daughters are making, their popularity among Island, England and American breeders, convinces us that "Golden Fern's Lad" is the most prepotent, most distinguished and pre-eminent Jersey bull that the world has ever produced.

MAJESTY'S LADY HOUPLA, 213941, A. J. C. C.

(P. 12592, H. C.)

Prize Winner over the Island, August, 1907.

One of the group winning the President's Cup, August, 1907. See picture other side. It was conceded day's before the show by the best judges on the Island that she was an outstanding winner for first honors and the Blythwood Bowl, but nature had its course and she calved just before the show.

Bred by Charles Mourant, St. Saviour, Island of Jersey.

Born January 31th, 1905.

Imported by T. S. Cooper & Sons, October 8th, 1907.

White on brisket, stifles, belly, flanks, right fore foot; tongue and switch white.

Of noble carriage, with very handsome head, very rich, incurving horns; large prominent eyes; thin, long neck; splendid withers; long, strong, straight back; very broad hips; beautiful setting of tail, which is very long and thin, with magnificent switch; body of enormous depth and width; very thin skin; magnificent udder running way to the front and rear, with good-sized and beautifully-placed teats.

Majesty's Lady Houpla for style, individuality, breeding, and dairy conformation, stands in a class all by herself. Her picture on opposite page, taken on the show grounds on the Island when only two years old, convinces us of the great promise one can expect from this remarkable animal.

She is the highest priced female in the importation.

Majesty,

P. 3523, H. C.

A very promising bull, he is by a great sire, and out of a wonderful dairy cow, she has won in the public butter test on the Island the Silver and Bronze Medal, making 2 lbs. 15½ ozs. butter in 24 hours, when 94 days in milk.

Dam

Lady Houpla,

F. 9271, H. C.

Lady Houpla, F. 9271, H. C., the highest priced cow in the 1905 importation; she won the following prizes in the public butter tests on the Island, as well as 1st pr., and Breeders Champion Cup at St. Saviour show 1905.

Certificate of Merit in butter test Oct. '04, 1 lb 9½ ozs 240 days in milk after first calf.

Certificate of Merit, May, '05 1 lb 13½ ozs. 105 days in milk.

Lady Houpla's sire is Houpla, P. 2793, H. C. who's a son of the famous cow Oxford Lass, dam of Oxford Lad, Caiest, and other great animals.

The dam of Lady Houpla was the great Fontaine cow, "Mourant's Fontaine," sold in our '06 auction sale to Gedney Farm for \$900. She was a most remarkable cow, and the admiration of all who saw her; on opposite page we give her pedigree, and we very much doubt if we ever before sold at auction an animal so good individually, so close to public butter test cows, and that can show such a collection of celebrated animals, as what "Majesty's Lady Houpla" can.

Due to calve June 12th, 1908, by the very promising young bull "Oxford Boy," son of Gamboge's Knight, P. 3645, H. C., son of Agatha's Flying Fox, P. 3256, H. C., out of Fontaine's Oxford Pride, a great daughter of the bull Caiest, P. 2591, H. C. She is also a great butter test cow, and won first prize over the Island. Also won the Blythwood Bowl, August, 1904. She sold in our 1905 sale for \$2,500. The dam of "Oxford Boy" is Oxford Ixia 6th, P. 10456, H. C. Full sister to the famous bull Majesty. She is a prize winner over the Island and in the public butter test. The calf that "Majesty's Lady Houpla" is carrying is worth a little mint.

Oxford Lad, P. 3123, H. C.

1st prize St. Saviour Show, '02.

Sweepstakes over St. Saviour and Grouville Shows, April, 1903.

1st State's prize over the Island, April, 1903.

Champion St. Saviour and Grouville Shows, 1905.

Full brother to Flying Fox's Oxford Lass that won first prize over the Island, August, 1903.

He is sire of cow "Distinction Queen" that won first prize over the Island, also Blythwood Bowl, Aug., '06, and many other prize winners.

Lucy 18th, 1st over Jersey, 1907, and reserve for Blythwood Bowl, and one of the group of four winning the President's Cup, Aug., '07.

Oxford Ixia 6th, reserve over Jersey, and tested in public butter test 1 lb. 14 ozs., 145 days in milk, she is a full sister to bull Majesty.

Oxford Buttercup, certificate in public butter test 1 lb. 11 ozs., 146 days in milk.

Oxford Ixia 3d,

P. 8584, H. C.

Following prizes have been won in public butter tests:

Silver Medal, Oct., '03, 2 lbs. 1½ ozs., 235 days in milk;

Bronze Medal, May, '04, 2 lbs. 15½ ozs., 94 days in milk, and a number of other butter prizes.

She was sold at a long price to Dr. Watney, England, who only buys big butter test cows.

Champion Flying Fox, 61441, A. J. C. C.

Flying Fox, P. 2729, H. C.

Champion winner over the Island, August, '99. Sold at our auction sale May, '02, for \$7,500. In same sale three of his heifers on first calf averaged \$933.

Sire of "Fox Glove" that tested in public butter test on the Island 2 lbs. 8½ ozs. in 24 hours; also

Oxford Vixen that tested 2 lbs. 2½ ozs.

Fox's Belle of Grouville, 21 lbs. 3 ozs.

Fox's Belle of Trinity, 20 lbs. ½ oz.

Flying Fox's Rowena, 17 lbs. 2½ ozs.

Flying Fox's Pearl, 15 lbs. 7 ozs.

Flying Fox's Brown Belle 15 lbs. 3 ozs.

His son, Sam Loates, sire of Reindeer, bronze medal winner public butter test, October, 1907, 1 lb. 13½ ozs. 161 days in milk.

Oxford Lass,
P. 3582, C.

One of the most cele-
brated cows the
Island ever pro-
duced.

Some years ago
while on the
Island, we called
to see Oxford Lass,
having been told
it would be hard to
find her equal in Jer-
sey. Nothing could
tempt the owner to
name a price on
her, and he finally told us that if he sold the
cow, he also would have to leave the Island.
She has milked as high as 28 quarts daily, and
her milk veins and udder were a sight to see.
We were so much impressed with her that we
went to see her several times. Her daughter,
Oxford Lixia, tested on the Public Fair Grounds
2 lbs. 13 ozs. in 24 hours. She is also dam
of Golden Queen of St. Saviour, 149137, A. J.
C. C., that tested in Public Butter Test, 2 lbs.
1½ ozs. in 24 hours, 214 days in milk. She is
also dam of Flying Fox's Oxford Lass, 1st

T. S. COOPER & SONS' AUCTION SALE OF JERSEY CATTLE.

No. 33. Heifer.

STOCKWELL'S ZANZIBAR, 213967, A. J. C. C.

Bred by W. Gaudin Renouf, St. Martin, Island of Jersey.

Born February 20th, 1906.

Imported by T. S. Cooper & Sons, October 8th, 1907.

Solid color; black tongue and switch.

An exceedingly handsome heifer, the very type of her dam (No. 32), carries a beautiful head, with large, prominent eyes; thin, long neck; long, strong, straight back; very broad hips; thin, long tail, with magnificent switch; splendid body; very thin, mellow hide; magnificent udder development, with good sized and beautifully placed teats.

Sire

Stockwell,

P. 3550, H. C.

Sold at our May, '07, auction sale for \$11,500, to Hon A. B. Lewis, Fredericksburg, Va. He is without a doubt the grandest show bull that has been seen on exhibition for years; this was the opinion expressed at the Chicago National Dairy Show, last October, by at least 80 per cent of the best Jersey breeders in the country.

He comes from a family to which we have pinned our faith for many years.

He inherits from his illustrious dam and sire dairy qualities of untold merit.

His heifers, that have come to milk on their first calving, have surprised us beyond belief, so much so, that they rob themselves and put too much in the pail.

His heifers in milk, and the young things to be sold at our sale next Decoration Day, will convince the most skeptic breeder that Stockwell is a bull of untold value.

No. 34. Heifer Calf. NOBLE'S LADY EMINENT, 214025, A. J. C. C.

Bred by John A. Perree, St. Saviour, Island of Jersey.

Born January 1st, 1908.

Imported in dam by T. S. Cooper & Sons, October 8th, 1907.

Solid color; black tongue and switch.

A very handsome and valuable calf; every indication of making a great cow; great udder development, with good-sized and beautifully-placed teats.

Sire

Noble of

Oaklands,

P. 3909, H. O.

1st prize at St. Saviour, '07.

Bred and owned by Mr. John A. Perree, Island of Jersey. We have been informed by reliable people, that Mr. Perree has refused \$10,000, for Noble of Oaklands.

See page G, first pages, for extended pedigree and full particulars.

Blue Belle's Blue Fox, P. 3633, H. C. A very promising sire and great show bull. He was sold at Mr. D. S. Williams sale, Nashville, Tenn., Dec., '07, to Mr. Harry Prentice, Worcester, Mass., for \$1,025, who was offered a large advance in price right after the sale.

He was shown at the Nashville, Tenn. show, Oct., '07, in a class where the Champion bull of the year was shown and Prof. Scovell, who had handed out the Champion ribbons at the shows, was free in saying, "had he been Judge at Nashville, Blue Belle's Blue Fox would have been Champion."

Imported Blue Belle, 180234, A. J. C. C.

(Blue Belle, P. 4307, H. C.)

Sold in our May, 1904, auction sale, to Mr. Howard Willets, "Gedney Farm," White Plains, N. Y., for \$3,600. Dam of Caumais Lad, P. 2257, H. C., sire of Financial King, P. 2624, H. C., and Guenon's Lad, both noted sires. Dam of Blue Nun, 18 lbs. 5½ ozs. Dam of Golden Lad's Blue Belle, sold in our May, 1903 sale, for \$1,725. Dam of Blue Belle 6th and 7th and of Blue Belle's Handsome Fox. Also dam of Blue Belle's Golden Fern, 69196, that sold as a calf for \$3,000. Blue Belle has the distinction of being "courted" by the best breeders in England and America, among them lords and American millionaires, and the day she left the Island it was one of sorrow for those who loved her so well, as she had brought them many pounds sterling, not only for her offspring, but for her gilt-edged butter which sold weekly at the top price in the St. Helier market.

Lady Viola, P. 8463, H. C.

The highest priced and most sensational cow now on the Island or in England.

She won 1st prize over Jersey, '04; won in Public Butter Test, May, '04, 2 lbs. 12 ozs.

1st pr. over Jersey and Theatre Cup, May, '05.

1st pr. Sweepstakes and Champion, St. Saviour and Grouville Shows, '05.

1st ov. England wherever exhibited, '06, and '07.

Champion over all England, '07.

1st pr. for butter test cows, Aug., '07.

Lady Viola is dam of Noble of Oaklands, also dam of Miss Viola, P. 9644, H. C. that tested in Public Butter Test, May, '05, 2 lbs. 15 ozs. Also dam of Willoh's Rosy, P. 10444, H. C., that tested in Public Butter Test, 3 lbs. of butter. Dam of Poppy's Viola, P. 10902, H. C. Winner of Bronze Medal in Public Butter Test, yielding 1 lb. 15 ozs., when 159 days in milk, after dropping her first calf, being only 30 months old.

Bobby's Shy Fox, P. 64760, A. J. C. C. Shy Fox.

P. 3143, H. C. Champion winner at St. Saviour and Grouville Shows, Island of Jer., '02. First and Champion-ship Ohio and Illinois State Fairs, '03.

Champion Flying Fox, 61441, A. J. C. C. Flying Fox.

P. 2729, H. C. Champion winner over the Island, August, '99. Sold at our auction sale May, '02, for \$7,500. In same sale three of his heifers on first calf averaged \$933.

Sire of Fox Glove that tested in Public Butter Test on the Island, 2 lbs. 8½ ozs. in 24 hours also Oxford Vixen that tested 2 lbs. 2½ ozs.

Fox's Belle of Grouville, 21 lbs. 3 ozs. Fox's Belle of Trinity, 20 lbs. 4 ozs.

Flying Fox's Rowena, 17 lbs. 2½ ozs. Flying Fox's Pearl, 15 lbs. 7 ozs.

Flying Fox's Brown Belle, 15 lbs. 3 ozs. His son Sam Loates, sired Reindeer, Bronze Medal winner public butter test, October, 1907, 1 lb. 13½ ozs., 161 days in milk.

Venus Violet, P. 3946, H. C. A magnificent dairy cow, milking 20 quarts daily.

Bobby, P. 208, H. C., inherits through his dam the blood of Mr. Arthur's famous Roses. This family has won many honors in the show ring, and they are noted for their uniform quality and great ability as butter producers. They inherit these qualities from a long line of noted ancestors, among which are Orange Peel, 129; Clement, 61; old Noble; Cowslip, 330; Rose, 339; Forget-me-not, 338—all of which were great prize winners and heavy butter-making cows, or the sires and dams of such. The blending of Coomassie and Young Rose blood has been through Bobby, productive of most excellent results, and their descendants have always found a ready sale and commanded liberal prices.

Aristocrat, P. 2280, H. C. 1st over Jersey, '98. 1st and Sweepstakes three Parish Shows 1897.

Aristocrat is a son of the famous show and butter cow, "Nameless," and he is already showing his worth as a sire of cows that are a credit to his illustrious dam.

He is sire of Aristocratic Beauty, that won the Silver Medal in the public butter test on the Island, testing 2 lbs. 10½ ozs. in 24 hours, being in milk at time of test 121 days. She sold in our May, 1906 sale, for \$1,100.

Gipsy Maid, P. 4424, H. C. 3d over Jersey, '97. 2d and Sweepstakes at three Parish Shows, '97. A magnificent dairy cow.

Dam

Cocotte,

P. 8300, H. C.

Cocotte was one of the handsomest and best dairy cows the Island ever produced, also a remarkable good breeder. We sold one of her daughters in the 1905 sale for \$750, to Hon.

A. M. Bowman, of Salem, Va. Nothing could tempt the owner of Cocotte to name a price on her.

She is also dam of the cow The Owl's Sensation, 162128, A. J. C. C. whose 9 months' old son The Sensational Fern, 75924, sold in our May, '07, auction sale to Hon. A. M. Bowman, Salem Va., for \$10,200.

The Owl's Sensation is a magnificent dairy cow. She stood third for the Blythwood Bowl at the Royal Show on the Island, Aug., 1902. She was an outstanding winner for the Bowl but owing to an accident she had to be milked before the judges passed on her.

Bred April 2d, 1908, to Viola's Golden Jolly, 79314, A. J. C. C., pronounced by different expert judges to be the handsomest bull seen for years at "Linden Grove," and as valuable as his illustrious Grand Sire Golden Fern's Lad. See front pages F, for pictures and full pedigree.

THE FAMOUS OLD COW BROOKHILL ROSE 2d, P. 3440, C.

First Prize and Champion Winner over the Island, May, 1898.

Has milked as high as 28 quarts daily.

Dam of Golden Fern's Red Rose, 168625, that milked 12,290 lbs. in one year, and tested 23 lbs. 10 ozs. of butter in 7 days.

Brookhill Rose 2d is also dam of Golden Fern's Rose Fern, 168517, who is dam of Rose Fern Rosebud, 169128, that sold at Mr. A. P. Walker's sale, August, 1906, for \$2,600. She milked in one year 12,503 lbs., 642 lbs. 11 ozs. estimated butter (Babcock) in one year. Golden Fern's Rose Fern is also dam of the sensational cow Sultan's Black Beauty, sold in our May, 1907 sale, for \$3,000.

Brookhill Rose 2d is also dam of the sensational bull Golden Jolly, P. 2921, H. C., noted as a great prize winner and for the superlative show and dairy qualities of his daughters. Golden Jolly is full brother to the two famous cows just mentioned; viz., Golden Fern's Red Rose and Golden Fern's Rose Fern. The following letter written by so good a judge as Dr. Linsley carries great weight:

To Jersey Bulletin:

Golden Jolly, 2921, J. H. B., has given indications through his progeny at recent shows and butter tests on the Island of being a superlatively prepotent sire in producing cows that combine the highest quality for both beauty and utility. No sire has ever equalled his record in the history of shows.

At the butter test, October, 1905, in Class I, for cows under five years of age, five of his progeny, four two years old, and one three years old, won awards. There were twenty-six awards in Class I. The second prize, a Bronze Medal, was won by Poppy Viola, 10902, two years old, 159 days in milk, yielding 27 lbs. in 24 hours; butter, 1 lb. 15 ozs., 13.93 lbs. of milk to a pound of butter. The cow that won first prize was two years older. Jolly's Lass, 10505, three years old, 101 days in milk, yielded 1 lb. 15½ ozs. of butter from 28 lbs. of milk; Jolly Maiden, 10946, two years old, 146 days in milk, yielded 1 lb. 8¼ ozs. of butter from 22 lbs. of milk; Twylish 9th, 10999, yielded 1 lb. 5 ozs. of butter from 24 lbs. of milk, 153 days in milk; and Jess, 10907, two years old, yielded 1 lb. 3¼ ozs. butter from 25 lbs. of milk, when 178 days in milk. I hope that Mr. Cooper may be able to secure the whole half dozen. What an exhibit that would make for one buyer.

JOHN S. LINSLEY, M. D., Baldwin Place, N. Y.

Brookhill Rose 2d is also dam of Reminder, P. 2419, H. C., a noted Island sire. She is also dam of Brookhill Fox, Champion winner in England, and a very successful show bull in the United States. He is now owned by Mr. J. M. Overton, Nashville, Tenn. She is also dam of Brookhill Lady Fox, sold in our May, 1907 sale for \$825. Her breeder, the late Mr. J. D. Richardson, asked £300 (\$1,500) for her before she dropped her first calf. After calving she proved such a great milker, that nothing could tempt him to name any price on her.

If any breeder takes a few minutes time, and examines the daughters of Golden Jolly, he will soon realize the great value of any of these animals.

No. 39½. Bull Calf. NOBLE OF ST. MARY, 79671, A. J. C. C.

Bred by J. S. Beaugie, St. Martin, Island of Jersey.

Born March 20th, 1908.

Imported in dam by T. S. Cooper & Sons, October 8th, 1907.

White spot on forehead; tongue and switch white; white on navel and brisket.

A very handsome calf, and one that is worthy o head any herd.

Sire**Noble of****Oaklands,**

P. 3909, H. C.

1st prize at St. Saviour, '07.

Bred and owned by Mr. John A. Perree, Island of Jersey. We have been informed by reliable people, that Mr. Perree has refused \$10,000, for Noble of Oaklands.

See page G, first pages, for picture of dam.

Blue Belle's Blue Fox, P. 3633, H. C.

A very promising sire and a great bull. He was sold at Mr. D. S. Williams sale, Nashville, Tenn., Dec., '07, to Mr. Harry Prentice, Worcester, Mass., for \$1,025, who was offered a large advance in price right after the sale.

He was shown at the Nashville, Tenn. show, Oct., '07, in a class where the Champion bull of the year was shown and Prof. Scoville, who had handed out the Champion ribbons at the shows shows, was free in saying, "had he been judge at Nashville, Blue Belle's Blue Fox would have been Champion."

Imported Blue Belle, 180234, A. J. C. C. (Blue Belle, P. 4307, H. C.)

Sold in our May, 1904, auction sale, to Mr. Howard Willes, "Gedney Farm," White Plains, N. Y., for \$3,600. Dam of Caumais Lad, P. 2257, H. C., sire of Financial King, P. 2624, H. C., and Guenon's Lad, both noted sires. Dam of Blue Nun, 18 lbs. 5½ ozs. Dam of Golden Lad's Blue Belle, sold in our May, 1903 sale, for \$1,725. Dam of Blue Belle 6th and 7th and of Blue Belle's Handsome Fox. Also dam of Blue Belle's Golden Fern, 69196, that sold as a calf for \$3,000. Blue Belle has the distinction of being "courted" by the best breeders in England and America, among them lords and American millionaires, and the day she left the Island it was one of sorrow for those who loved her so well, as she had brought them many pounds sterling, not only for her offspring, but for her gilt-edged butter which sold weekly at the top price in the St. Helier market.

Lady Viola,

P. 8463, H. C. The highest priced and most sensational cow now on the Island or in England.

She won 1st prize over Jersey, '04; won in Public Butter Test, May, '04, 2 lbs. 12 ozs.

Bobby, P. 208, H. C., inherits through his dam the blood of Mr. Arthur's famous Roses. This family has won many honors in the show ring, and they are noted for their uniform quality and great ability as butter producers. They inherit these qualities from a long line of noted ancestors, among which are Orange Peel, 129; Clement, 61, old noble; Cowslip, 330; Rose, 339; Forget-me-not, 338—all of which were great prize winners and heavy butter-making cows, or the sires and dams of such. The blending of Coomassie and Young Rose blood has been, through Bobby, productive of most excellent results, and their descendants have always found a ready sale and commanded liberal prices.

Sire

Cowslip's

Golden Lad,
P. 3250, H. C.

Cowslips Golden Lad is leaving many of the most promising young things now on the Island. He is a 50 per cent Golden Lad bull, and a grandson of Golden Lad's Solid Gold, a cow that sold in our 1900 sale for \$1,000. Dr. John S. Lindsley pronounced her udder to be the most perfect and largest he had ever seen on a cow.

Before his value as a sire became known, he was sent to the butcher.

Due to calve May 7th, 1908, by Noble of Oaklands, P. 3909, H. C., for whom his owner, Mr. John A. Perree, Island of Jersey, has refused \$10,000. His dam, Lady Viola, P. 8463, H. C., the great public butter test and Champion prize winner—is to-day the most sensational Jersey cow in Europe. See No. 39½ for full pedigree of Noble of Oaklands.

No. 47. Bull Calf. BEATRICE'S STOCKWELL, 79712, A. J. C. C.

Bred by T. S. Cooper & Sons.
Born November 6th, 1907.
Solid color; white line on left side; black tongue, black switch.

An exceedingly handsome calf of lofty carriage; handsome head; large, prominent eyes; strong, straight back, with best of withers and loins; broad hips; tail beautifully set; neat in bone; wide and deep body; very thin, loose, mellow hide.

Beatrice's Stockwell carries a name that will impress all Jersey breeders. He is sired by the sensational bull Stockwell, sold at our last auction sale for \$11,500. His dam, Golden Beatrice 2d, is known the land over as a remarkable cow. Mr. George Peer has frequently told us that Golden Beatrice 2d, appealed to him as the greatest imported Jersey cow he ever saw.

Beatrice's Stockwell is the very image of his sire With his aristocratic carriage and his royal breeding and the remarkable number of Highly Commended animals so close up in his pedigree and the richness and attractiveness, and his great individual excellence, should make him the great attraction of this sale.

Sire

Stockwell,

P. 3550, H. C.

Sold at our May, '07, auction sale for \$11,500, to Hon. A. B. Lewis, Fredericksburg, Va. He is without a doubt the grandest show bull that has been seen on exhibition for years; this was the opinion expressed at the Chicago National Dairy Show, last October, by at least 80 per cent. of the best Jersey breeders in the country.

He comes from a family to which we have pinned our faith for many years.

He inherits from his illustrious dam and sire, dairy qualities of untold merit.

His heifers, that have come to milk on their first calving, have surprised us beyond belief, so much so, that they rob themselves and put too much in the pail.

His heifers in milk, and the young things to be sold at our sale next Decoration Day, will convince the most skeptic breeder that Stockwell is a bull of untold value.

Dam

Golden Beatrice 2d,
162060, A. J. C. C.

P. 8236, H. C.

Golden Beatrice 2d, is one of the best and handsomest cows ever owned at "Linden Grove."

Large and tempting offers have been made for her but we always refused to name a price on her. She tested, May, '04, 2 lbs. 10 ozs. of butter in 24 hours from 48 lbs. of milk, at the rate of 18 lbs. 6 ozs. per week. She can with comfort make 3 lbs. of butter per day. When fresh she has repeatedly given 24 qts. milk per day. Her heifer calf "Eminent's Golden Beatrice" sold in our May, '07, auction sale for \$1,460, to Mr. Alfred G. Vanderbilt, Newport Rhode Island.

BULL, STOCKWELL. COW, GOLDEN BEATRICE 2d. (Sire and dam of Beatrice's Stockwell, No. 47.)

No. 48. Bull.

STOCKWELL'S TRINITY PRINCE, 79317, A. J. C. C.

Bred by Thomas Cabot, Trinity, Island of Jersey.
Born November 10th, 1906.
Imported by T. S. Cooper & Sons, October 8th, 1907.

Solid color; black tongue and switch.
One of the handsomest young bulls in the importation. He is of lofty carriage; handsome head; large, prominent eyes; thin, long neck; long, strong, straight back; splendid withers; broad hips; tail beautifully set, thin and long, with magnificent switch; splendid body of great depth and width; soft mellow hide rudimentary well placed.

Stockwell's Trinity Prince is magnificently bred, and individually as good as they make them, and worthy to head any herd.

Sire

Stockwell,

P. 3550, H. C.

Sold at our May, '07, auction sale for \$11,500, to Hon. A. B. Lewis, Fredericksburg, Va. He is without a doubt the grandest show bull that has been seen on exhibition for years; this was the opinion expressed at the Chicago National Dairy Show, last October, by at least 80 per cent. of the best Jersey breeders in the country.

He comes from a family to which we have pinned our faith for many years.

He inherits from his illustrious dam and sire, dairy qualities of untold merit.

His heifers, that have come to milk on their first calving, have surprised us beyond belief, so much so, that they rob themselves and put too much in the pail.

His heifers in milk, and the young things to be sold at our sale next Decoration Day, will convince the most skeptic breeder that Stockwell is a bull of untold value.

See following page No. 49 for extended pedigree of Stockwell.

T. S. COOPER & SONS' AUCTION SALE OF JERSEY CATTLE.

Bull. IMPORTED STOCKWELL, 75264, A. J. C. C.

(Highly Commended Bull, Stockwell, P. 3550, H. C.)

Sold in our May, 1907 auction sale, for \$11,500 to Hon. A. B. Lewis, Fredericksburg, Va.

Bred by Philip J. Ahier, St. Martin, Island of Jersey.
Born March 8th 1903.

Imported by T. S. Cooper & Sons, September 25th, 1906.

Solid color; long tongue and switch.
Stockwell must be seen to be appreciated. He is very aristocratic in his carriage, this comes to him by inheritance; he swings his beautiful head so becoming to his breeding; he has large, sparkling eyes; very rich horns; broad forehead; beautiful neck; strong, straight back; best of withers; very broad hips; extra length from hips to setting of tail, which is long and thin, with splendid switch; very neat in bone; skin very rich, thin, soft and mellow as a mole's; grand wedge-shaped body of great depth and width; large and beautifully placed rudimentaries.

Stockwell, P. 3550, H. C., is one of the most sensational bulls imported for years. He inherits from his illustrious dam and sire, dairy qualities of untold merit, as well as show yard excellence, approached by none. He comes from a family to which we have pinned our faith for many years.

Imported by T. S. Cooper & Sons, October 8th, 1907.

Fawn, with few white hair on forehead, white on brisket, belly, fore feet and hind ankles; white tongue; black and white switch.

A very handsome heifer; nice head, with large, prominent eyes; rich-colored horns, thin neck, strong, straight back; broad hips; best of loins and withers; tail beautifully set which is thin and long, with splendid switch, body of great depth and width; thin, soft, mellow hide. Although two months from calving, her udder development is remarkable, with good sized and beautifully-placed teats.

Sire

Stockwell,

P. 3550, H. C.

Sold at our May, '07, auction sale for \$11,500, to Hon. A. B. Lewis, Fredericksburg, Va. He is without a doubt the grandest show bull that has been seen on exhibition for years; this was the opinion expressed at the Chicago National Dairy Show, last October, by at least 80 per cent. of the best Jersey breeders in the country.

He comes from a family to which we have pinned our faith for many years.

He inherits from his illustrious dam and sire, dairy qualities of untold merit.

His heifers, that have come to milk on their first calving, have surprised us beyond belief, so much so, that they rob themselves and put too much in the pail.

His heifers in milk, and the young things to be sold at our sale next Decoration Day, will convince the most skeptical breeder that Stockwell is a bull of untold value.

See preceding page for extended pedigree of Stockwell.

Due to calve May 27th, 1908, by Jack of All Work, P. 3976, H. C., who was sired by Trial of Oaklands, P. 3644, H. C.; he by Agatha's Flying Fox, P. 3256, H. C., out of that grand old cow Dorothy, P. 4411, H. C. The dam of "Jack of All Work" was Maid of All Work, P. 7627, H. C., by Golden Fern's Lad, P. 2160, H. C., out of Golden Drop, F. 3335, H. C. All highly commended animals.

Golden Fern's Lad,

P. 2160, H. C.

The most celebrated bull the Island of Jersey has ever produced.

His son Flying Fox, sold in our May, '02, sale for \$7,500. His son Eminent 2d, sold in our '05 auction sale for \$10,000. His daughter Golden Sultane won 3d pr. at the great St. Louis Show, Sept., '94, and sold in the ring for \$2,350.

Ten of his get have been sold at an average of \$4,560.

Thirty-nine of his get (some only calves) sold at our auction sale at an average of \$1,308.

In our 1908 sale we will sell such a remarkable collection of females sired by his sons Golden Jolly, Eminent 2d and Flying Fox, that it will convince the most skeptical that he is the most potent bull that ever lived.

Imported by T. S. Cooper & Sons, October 8th, 1907.

Solid color; few white hairs on each fore foot; black tongue and switch.

A very large, handsome heifer; strong, straight back; very broad hips; thin, long tail, with splendid switch; wide and deep body; very thin, loose, mellow hide; magnificent udder development, with good-sized and beautifully-placed teats.

Sire

Stockwell,

P. 3550, H. C.

Sold at our May, '07, auction sale for \$11,500, to Hon. A. B. Lewis, Fredericksburg, Va. He is without a doubt the grandest show bull that has been seen on exhibition for years; this was the opinion expressed at the Chicago National Dairy Show, last October, by at least 80 per cent. of the best Jersey breeders in the country.

He comes from a family to which we have pinned our faith for many years.

He inherits from his illustrious dam and sire, dairy qualities of untold merit.

His heifers, that have come to milk on their first calving, have surprised us beyond belief, so much so, that they rob themselves and put too much in the pail.

His heifers in milk, and the young things to be sold at our sale next Decoration Day, will convince the most skeptic breeder that Stockwell is a bull of untold value.

Sire

Stockwell,

P. 3550, H. C.

Sold at our May, '07, auction sale for \$11,500, to Hon. A. B. Lewis, Fredericksburg, Va. He is without a doubt the grandest show bull that has been seen on exhibition for years: this was the opinion expressed at the Chicago National Dairy Show, last October, by at least 80 per cent. of the best Jersey breeders in the country.

He comes from a family to which we have pinned our faith for many years.

He inherits from his illustrious dam and sire, dairy qualities of untold merit.

His heifers, that have come to milk on their first calving, have surprised us beyond belief, so much so, that they rob themselves and put too much in the pail.

His heifers in milk, and the young things to be sold at our sale next Decoration Day will convince the most skeptic breeder that Stockwell is a bull of untold value.

Bred by W. Gaudin Renouf, St. Martin, Island of Jersey.
Born May 21st, 1907.
Imported by T. S. Cooper & Sons, October 8th, 1907.

Solid color; black tongue and switch.

An exceedingly handsome heifer with lofty carriage; lovely head; large, prominent eyes; thin, long neck; long, straight back; broad hips; splendid loins and withers; tail beautifully set, which is thin and long, with splendid switch; wide and deep body; loose, mellow hide; magnificent udder development, running way to the front, with large and beautifully-placed teats.

Sire

Stockwell,
P. 3560, H. C.

Sold at our May, '07 auction sale at \$11,500 to Hon. A. B. Lewis, Fredericksburg, Va. He is without a doubt the grandest bull that has been seen on exhibition for years, this was the opinion expressed at the Chicago National Dairy Show, last October, by at least 80 per cent. of the best Jersey breeders in the country. He comes from a family to which we have "pinned" our faith for many years. He inherits from his illustrious dam and sire dairy qualities of untold merits. His heifers that have come to milk on their first calving have surprised us beyond belief, so much so that they rob themselves and put too much in the pail. Stockwell,

P. 3550, H. C.

Sold at our May, '07, auction sale for \$11,500, to Hon. A. B. Lewis, Fredericksburg, Va. He is without a doubt the grandest show bull that has been seen on exhibition for years; this was the opinion expressed at the Chicago National Dairy Show, last October, by at least 80 per cent. of the best Jersey breeders in the country.

He comes from a family to which we have pinned our faith for many years.

He inherits from his illustrious dam and sire dairy qualities of untold merit. His heifers, that have come to milk on their first calving, have surprised us beyond belief, so much so, that they rob themselves and put too much in the pail.

His heifers in milk, and the young things to be sold at our sale next Decoration Day, will convince the most skeptic breeder that Stockwell is a bull of untold value.

Golden Fern's Lad, P. 2160, H. C.
Judging by what the sons of "Golden Fern's Lad" are doing on the Island and in America, and best of all, the great public butter tests that the daughters are making, their great popularity among Island, England and American breeders, convinces us that "Golden Fern's Lad" is the most prepotent, most distinguished, and preeminent Jersey Bull the world has ever produced. His sons and daughters have been winning Champion prizes in the Show Rings last fall, from the Atlantic to the Pacific.
If his son, "Golden Jolly," was living and could be sold in our next sale, with his daughters, \$15,000 would not be a bad investment.

Blue Belle's Blue Fox,
P. 3633, H. C.

A very promising sire and great show bull. He was sold at Mr. D. S. Williams sale, Nashville, Tenn. Dec., '07, to Mr. Harry Prentice, Worcester, Mass., for \$1,025, who was offered a large advance in price right after the sale.

He was shown at the Nashville, Tenn. show, Oct., '07, in a class where the Champion bull of the year was shown and Prof. Scovell, who had handed out the Champion ribbons at the shows, was free in saying, "had he been Judge at Nashville, Blue Belle's Blue Fox would have been Champion."

Imported Blue Belle, 180234, A. J. C. C.

(Blue Belle, P. 4307, H. C.)

Sold in our May, 1904, auction sale, to Mr. Howard Willets, "Gedney Farm," White Plains, N. Y., for \$3,600. Dam of Caumais Lad, P. 2257, H. C., sire of Financial King, P. 2624, H. C., and Guenon's Lad, both noted sires. Dam of Blue Nun, 18 lbs. 3½ ozs. Dam of Golden Lad's Blue Belle, sold in our May, 1903 sale, for \$1,725. Dam of Blue Belle 6th and 7th and of Blue Belle's Handsome Fox. Also dam of Blue Belle's Golden Fern, 69196, that sold as a calf for \$3,000. Blue Belle has the distinction of being "courted" by the best breeders in England and America, among them lords and American millionaires, and the day she left the Island it was one of sorrow for those who loved her so well, as she had brought them many pounds sterling, not only for her offspring, but for her gilt-edged butter which sold weekly at the top price in the St. Helier market.

Lady Viola,

P. 8463, H. C.

The highest priced and most sensational cow now on the Island or in England.

She won 1st prize over Jersey, '04; won in Public Butter Test, May, '04 2 lbs. 12 ozs.

No. 61. Bull.

NOBLE OF ST. SAVIOUR, 79321, A. J. C. C.

Bred by John A. Perree, St. Saviour, Island of Jersey.

Born April 6th, 1907.

Imported by T. S. Cooper & Sons, October 8th, 1907.

Solid color; black tongue and switch.

A handsome young bull of great size, with splendid dairy qualities; beautiful head, with short, rich-colored horns; large, prominent eyes; dished face; long, straight back, with good withers; broad hips; tail well set, which is thin and long, with splendid switch; good body; loose, mellow hide; neat in bone, with splendid rudimentaries well placed.

Leda's Prince,
P. 2762, H. C.
Winner of many 1st prizes over England. Leda's Prince is a full brother to the famous cows, Golden Leda P. 8000, H. C. the dam of Stockwell that sold in our May, '07, sale for \$11,500. She is also dam of the celebrated bull Leda's Golden Lad and other famous animals. Leonie's Lady,

P. 9370, H. C.

We imported Leonie's Lady, Oct. '07, at great cost, but we were unfortunate in losing her. She won 2d pr. over the Island, Aug., '02, in a large class. She was a magnificent dairy cow, just such a cow from which we would like to select a bull for use in our own herd. She was an exceedingly rich-colored cow, with teats, and udder that go a long way toward making a great dairy cow.

Golden Fern's Lad,
P. 2160, H. C.
1st and Champion at N. C. Show, '96, '97. For a number of years the blood of Golden Fern's Lad has dominated the show and sale rings. The climax was reached last year, when every winning of any consequence, at all the principal Fairs of America, England and the Island was made by a son or a daughter, or a near descendant of Golden Fern's Lad. The record price at auction (\$11,500) was made for a grandson of Golden Fern's Lad and an eight months old bull calf by him brought \$10,200.

At the National Dairy Show, Chicago, the grand champion and junior champion females were daughters of Golden Fern's Lad, the Grand Champion bull was a grandson, and out of a granddaughter of Golden Fern's Lad. The four prizes for bull and get (the most important of all prizes) all went to Golden Fern's Lad and his close descendants.

If you intend to begin breeding Jerseys, or if you are now breeding, don't you think the above record is worthy of your attention, and "look before you leap." They are winners at the churn and in the show ring—you are always certain to be called up front by the Judge for the blue ribbon.

For a number of years the blood of Golden Fern's Lad has dominated the show and sale rings. The climax was reached last year, when every winning of any consequence, at all the principal Fairs of America, England, and the Island was made by a son or a daughter, or a near descendant of Golden Fern's Lad.

The record price at auction (\$11,500) was made for a grandson of Golden Fern's Lad and an eight months old bull calf by him brought \$10,200.

At the National Dairy Show, Chicago the grand champion and junior champion females were daughters of Golden Fern's Lad, the Grand Champion bull was a grandson, and out of a granddaughter of Golden Fern's Lad.

The four prizes for bull and get (the most important of all prizes) all went to Golden Fern's Lad and his close descendants.

T. S. COOPER & SONS' AUCTION SALE OF JERSEY CATTLE.

No. 63. Bull Calf. NOBLE PRINCE OF ST. HELIER, 79399, A. J. C. C.

Bred by R. Le Feuvre, St. Helier, Island of Jersey.

Born December 24th, 1907.

Imported in dam by T. S. Cooper & Sons, October 8th, 1907.

Solid color; white on right side of black tongue; switch black.

An exceedingly handsome calf; beautiful head with large, prominent eyes; thin, long neck; straight, strong back; splendid withers; broad hips with best of loins; tail beautifully set; body of great depth and width; skin very loose, thin and as soft as a mole's.

For royal parentage Noble Prince of St. Helier ranks with the best and with his great individual excellence, he should be one of the great attractions of the sale.

Aristocrat is a son of the famous show and butter cow, "Nameless," and he is already showing his worth as a sire of cows that are a credit to his illustrious dam. He is sire of Aristocratic Beauty, that won the Silver Medal in the public butter test on the Island, testing 2 lbs. 10½ ozs. in 24 hours, being in milk at time of test 121 days. She sold in our May, 1906 sale, for \$1,100.

Her sire Golden Lad 2d, was held in as great esteem as a successful sire as the famous Golden Lad. There will be only one buyer for Noble Prince of St. Helier but in very few years there will be many a breeder who will think of the chance with regret that he did not bid last.

Golden Fern's Lad, P. 2160, H. C.
Judging by what the sons of "Golden Fern's Lad" are doing on the Island and in America, and best of all, the great public butter tests that the daughters are making, their great popularity among Island, England and American breeders, convinces us that "Golden Fern's Lad" is the most prepotent, most distinguished, and preeminent Jersey Bull the world has ever produced. His sons and daughters have been winning Champion prizes in the Show Rings laid fall, from the Atlantic to the Pacific.
If his son, "Golden Jolly," was living and could be sold in our next sale, with his daughters, \$15,000 would not be a bad investment.

GOLDEN MAID OF ST. LAWRENCE, 213884, A. J. C. C.

(Highly Commended Cow, Bermuda, P. 8842, H. C.)

Certificate of Merit in Butter Test, October, 1904, 1 lb. 11¼ ozs., 125 days in milk.

GOLD MEDAL WINNER IN PUBLIC BUTTER TEST, MAY, 1904, 2 lbs. 6 ozs., 169 days in milk.

Bred by F. J. Godel, St. Lawrence, Island of Jersey.

Born July 28th, 1899.

Imported by T. S. Cooper & Sons, Oct. 8th, '07. Star in forehead; white on withers, right shoulder and side, croup and root of tail, brisket, stifles, belly, flanks, right fore foot, left fore leg, hind shanks; tongue and switch white.

Old breeders who remember seeing "Coomassie" 25 years ago, agree with me that Golden Maid of St. Lawrence is the very image of that great cow. She carries a beautiful head, with large, prominent eyes; very rich, thin, incurving horns; very thin, ewe neck; strong, straight back, with the best of withers and loins; very broad hips; thin long tail, with splendid switch, beautifully set; neat in bone; body of great depth and width; skin very mellow and as soft as a mole's; enormous, large, tortuous milk veins which are prominent on udder; large and beautifully-placed teats.

Sultane, P. 7, H. C.

From personal observation while on the Island of Jersey, I found the great prepotency of the Wolseley-Sultane blood demonstrated in a number of cases. As a matter of fact, wherever I found an exceptionally good cow or heifer the pedigree was sure to run back to Wolseley or Count Wolseley, and through him to the Sultane strain. The nick of Wolseley-Sultane blood was a particularly happy one; and if the Island people were as careful to test their cows as are the English they would obtain quite as good if not better results in my judgement, and Wolseley's great prepotency as a sire would be proved. I can state from my own observation that on the Public Fair Grounds at the Tring Show, England, 1899, the cow Sundew 4th, bred by Lord Braybrook, made 3 lbs. 6½ ozs. of butter in 24 hours. She is by "Old Port" whose dam, Madeira 3d, is a daughter of Wolseley, 401, J. H. B. The above test was made in the midst of all the usual bustle of a fair ground and under strict supervision. The cows, of which there were 85 entered, were milked thoroughly dry at 6 P. M., by a committee appointed by the judges; the owners having nothing to do with them but simply to feed them. If a cow would make the above test under such conditions, what would she not be capable of doing at home?

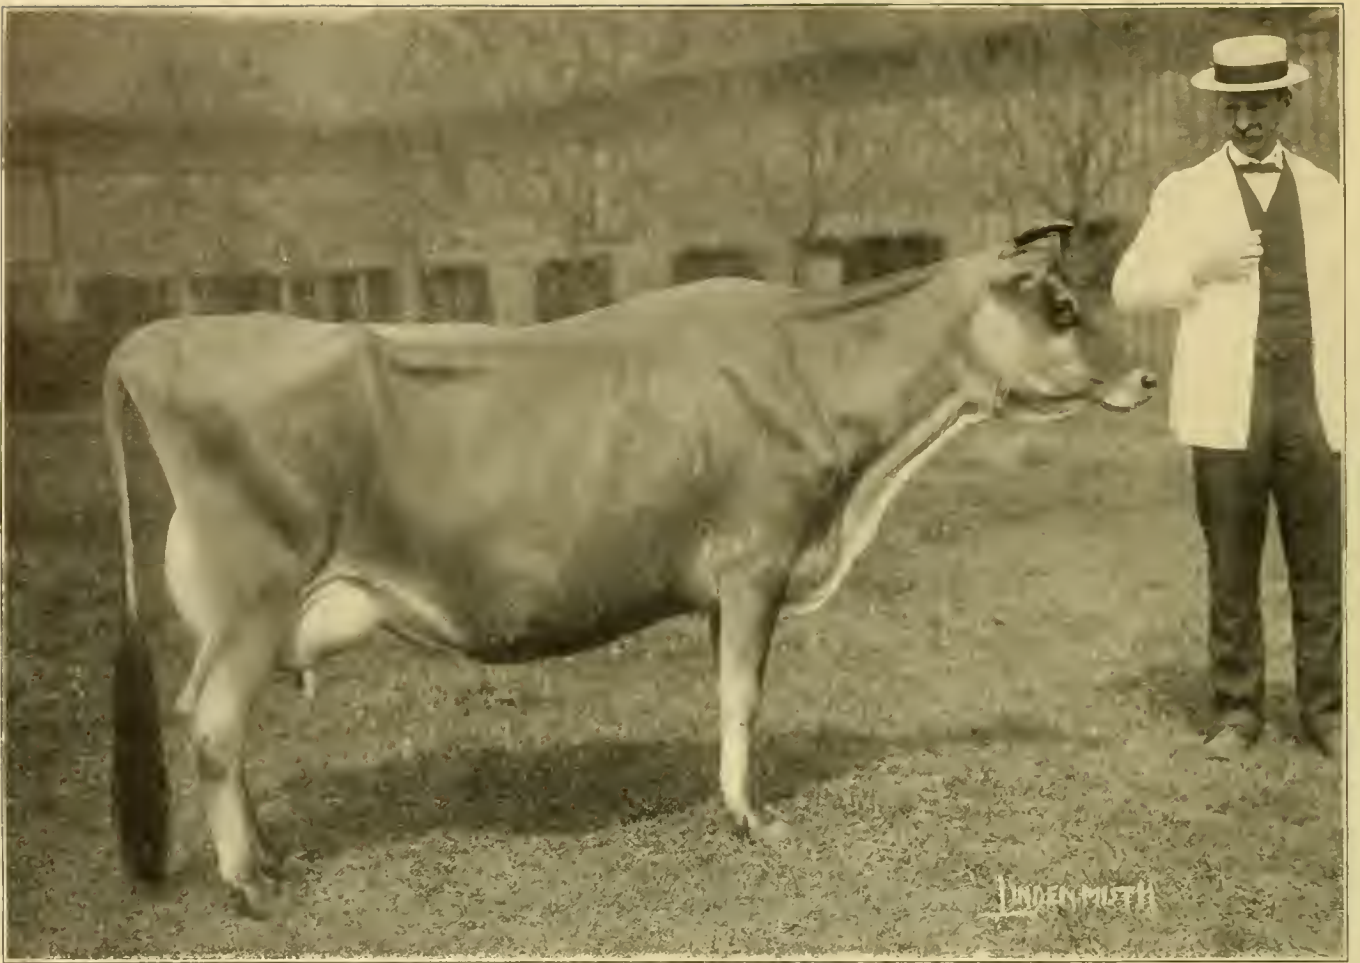

Bred January 23d, 1908, to the great bull "Majesty," P. 3523, H. C., whose illustrious pedigree appears on page C, front pages.

T. S. COOPER & SONS' AUCTION SALE OF JERSEY CATTLE.

Bull.

IMPORTED STOCKWELL, 75264, A. J. C. C.

(Highly Commended Bull, Stockwell, P. 3550, H. C.)

Sold in our May, 1907 Auction Sale, for \$11,500 to Hon. A. B. Lewis, Fredericksburg, Va.

Bred by Philip J. Ahier, St. Martin, Island of Jersey.

Born March 8th 1903.

Imported by T. S. Cooper & Sons, September 25th, 1906.

Solid color; black tongue and switch.

Stockwell must be seen to be appreciated. He is very aristocratic in his carriage, this comes to him by inheritance; he swings his beautiful head so becoming to his breeding; he has large, sparkling eyes; very rich horns; broad forehead; beautiful neck; strong, straight back; best of withers; very broad hips; extra length from hips to setting of tail, which is long and thin, with splendid switch; very neat in bone; skin very rich, thin, soft and mellow as a mole's; grand wedge-shaped body of great depth and width; large and beautifully placed rudimentaries.

Stockwell, P. 3550, H. C., is one of the most sensational bulls imported for years. He inherits from his illustrious dam and sire, dairy qualities of untold merit, as well as show yard excellence, approached by none. He comes from a family to which we have pinned our faith for many years.

Sire

Oxford Lad,

P. 3123, H. C.

1st prize St. Saviour Show, '02.

Sweepstakes over St. Saviour and Grouville Shows, April, 1903.

1st State's prize over the Island, April, 1903.

Champion St. Saviour and Grouville Shows 1905.

He is sire of cow "Distinction Queen" that won first prize over the Island, also Blythwood Bowl, Aug., '06, and many other prize winners.

Lucy 18th, 1st over Jersey, 1907, and reserve for Blythwood Bowl, and one of the group of four winning the President's Cup, Aug., '07.

Oxford Ixia 6th, reserve over Jersey, and tested in public butter test 1 lb. 14 ozs., 145 days in milk. She is a full sister to bull Majesty.

Oxford Buttercup, certificate in public butter test 1 lb. 11 ozs., 146 days in milk.

Oxford Lad sired the great bulls Majesty and Lucy's Champion, both in this importation, he also sired the bull calf Sultan's Oxford Lad, sold at the Gedney Farm sale, May, '07, for \$1,025. In five years from now many sensational animals will make their appearance sired by Oxford Lad.

Dam

Golden Leda,

P. 8000, H. C.

1st pr. ov. Jer., '01. 1st p. and Championship North Club Show, 1900 and 1901 and has milked over 40 lbs. per day with first calf.

Mr. Ahier, the owner and breeder of Golden Leda, also bred Golden Fern's Lad and Eminent 2d. She is also dam of a highly commended cow, Sweet Leda, P. 10454, H. C., winner first prize and Sweepstakes at St. Saviour and Grouville Shows, May, 1904. Golden Leda is also the dam of Leda's Golden Lad, P. 3063, H. C. 1st p. over Jer., '01, 1st State's prize, '01. Golden Leda is also dam of the sensational bull, "Stockwell," sold in our May, '07 sale for \$11,500. She has recently been sold by Mr. Wm. Rockefeller to Mr. A. B. Lewis.

Champion Flying Fox,

61441, A. J. C. C.

Flying Fox,

P. 2729, H. C.

Champion winner over the Island Aug., '99. Sold at our auction sale May, '02, for \$7,500. In same sale three of his heifers on first calf averaged \$933.

Sire of "Fox Glove" that tested in public butter test on the Island 2 lbs. 8 1/2 ozs. in 24 hours; also Oxford Vixen that tested 2 lbs. 2 1/2 ozs.

Fox's Belle of Grouville, 21 lbs. 3 ozs. Fox's Belle of Trinity, 20 lbs. 1/2 oz.

Flying Fox's Rowena, 17 lbs. 2 1/2 ozs.

Flying Fox's Pearl, 15 lbs. 7 ozs.

Flying Fox's Brown Belle, 15 lbs. 3 ozs.

At our 1904 May sale, nineteen of the get of Flying Fox averaged \$635.77.

His son, Sam Loates, sired Reindeer, bronze medal winner public butter test, October, 1907, 1 lb. 13 1/2 ozs., 161 days in milk.

Oxford Lass,

P. 3582, C.

One of the most celebrated cows the Island ever produced. She was never tested for butter, but milked as high as 28 qts. daily and her milk veins were a sight to see. In ten years from now we will realize her great worth as a dairy cow through her sons and daughters.

Golden Fern's Lad,

P. 2160, H. C.

The most celebrated bull the Island of Jer. has ever produced. His son, Flying Fox, sold in our May, '02 sale for \$7,500. His son, Eminent 2d, sold in our '05 sale, for \$10,000.

Leda, P. 6636, H. C.

One of the best cows the Island has ever produced.

Golden Fern's Lad,

P. 2160, H. C.

Judging by what the sons of "Golden Fern's Lad" are doing on the Island and in America, and best of all, the great public butter tests that the daughters are making, their great popularity among Island, England and American breeders, convinces us that "Golden Fern's Lad" is the most prepotent, most distinguished and pre-eminent Jersey bull that the world has ever produced. His sons and daughters have been winning Champion Prizes in the Show Rings last Fall from the Atlantic to the Pacific.

STOCKWELL'S DARKIE, 213977, A. J. C. C.

Bred by Mrs. J. D. Richardson, St. Martin, Island of Jersey.

Born May 1st, 1906.

Imported by T. S. Cooper & Sons, October 8th, 1907.

Solid color; black tongue and switch.

A beautiful heifer, with nice head; large, prominent eyes; very rich horns; thin, long neck; straight, strong back; broad hips; thin long tail, nicely set; grand loins; best of withers; wide and deep body; thin, mellow hide; splendid udder development, with good-sized and beautifully-placed teats.

Sire

Stockwell,

P. 3550, H. C.

Sold at our May, '07, auction sale for \$11,500, to Hon. A. B. Lewis, Fredericksburg, Va. He is without a doubt the grandest show bull that has been seen on exhibition for years; this was the opinion expressed at the Chicago National Dairy Show, last October, by at least 80 per cent. of the best Jersey breeders in the country.

He comes from a family to which we have pinned our faith for many years.

He inherits from his illustrious dam and sire, dairy qualities of untold merit.

His heifers, that have come to milk on their first calving, have surprised us beyond belief, so much so, that they rob themselves and put too much in the pail.

His heifers in milk and the young things to be sold at our sale next Decoration Day will convince the most skeptical breeder that Stockwell's a bull of untold value.

See preceding page for full pedigree of Stockwell.

His heifers, that have come to milk on their first calving, have surprised us beyond belief, so much so, that they rob themselves and put too much in the pail.

His heifers in milk, and the young things to be sold at our sale next Decoration Day, will convince the most skeptical breeder that Stockwell is a bull of untold value.

Grisette, P. 2058, H. C. Grand dairy cow, milking from 18 to 20 qts. daily, and very persistent

"Blue Belle" is a typical dairy cow from the tip of her nose to the end of her switch. She swings a very handsome and finely polished head, with large, sparkling, prominent eyes; broad forehead; dished face; rich, amber horns; broad nozzle with large nostrils; thin, long neck; best of withers; straight, long back; broad hips; beautifully set, thin, long, whip tail, with grand switch; grand wedge-shaped body of great depth and width; neat in bone; skin as soft and thin as a mole's; milk veins so large and tortuous that one prominent breeder when he saw her, thought she had a rupture. Her udder is absolutely perfect, and when fresh, without any exception, the largest we have ever seen on any cow, and when milked out, it can be taken in two hands. Tents large enough for any one and most beautifully placed. "Blue Belle" is one of the greatest dairy cows we have ever owned. As a mother of a great reproducing butter family, she is way up at the top of the ladder.

**Golden Fern's Lad,
P. 2160, H. C.**

1st and Champion at N. C. Show, '96, '97. For a number of years the blood of Golden Fern's Lad has dominated the show and sale rings. The climax was reached last year, when every winning of any consequence, at all the principal Fairs of America, England and the Island was made by a son or a daughter, or a near descendant of Golden Fern's Lad. The record price at auction (\$11,500) was made for a grandson of Golden Fern's Lad and an eight months old bull calf by him brought \$10,200.

At the National Dairy Show, Chicago, the grand champion and junior champion females were daughters of Golden Fern's Lad, the Grand Champion bull was a grandson, and out of a granddaughter of Golden Fern's Lad. The four prizes for bull and get (the most important of all prizes) all went to Golden Fern's Lad and his close descendants.

If you intend to begin breeding Jerseys, or if you are now breeding, don't you think the above record is worthy of your attention, and "look before you leap." They are winners at the churn and in the show ring—you are always certain to be called up front by the Judge for the blue ribbon.

**Dam
Fontaine's
Oxford Belle,
180250.**

**(Fonsfare,
F. 9385, H. C.)**

A remarkably good dairy cow by a great sire and out of a great cow.

There is quite a story connected with the sale of Fontaine's Oxford Belle, sold at our May, '04 sale, to Hon. A. M. Bowman, for \$435. She was dry at the time of sale, and one of the bargains that are often picked up at our sales. During the latter end of July we attended the sale of the late Mr. Berry in Lexington, Ky. and on our way home stopped off for our first time to see the owner of Bowmont Farms. Soon after we got there we happened to look up on a hillside and could see a cow with some heifers. We asked Mr. Bowman if he was not afraid a cow so heavy in calf might be injured on such a hill, as the heifers were playing along the hillside. He thought there was no risk, but when I discovered that the cow was Fontaine's Oxford Belle, I told Mr. Bowman that I believed that he did not think as much of that cow as what I did, and before I left I offered him \$2,000 for the cow. About a week later Mr. Herrick went to Bowmont Farms, and while he was there Fontaine's Oxford Belle dropped twin heifers to the service of Golden Fern's Lad. When they were a year old I got one of them for \$1,000, and the other one went to Mr. C. I. Hudson, New York City, for \$600. The one I got is Fontaine's Oxford Fern, the dam of the bull No. 94 Fontaine's Blue Fern.

Caieat, P. 2591, H. C.
1st pr. and Champion-ship and State's pr. Grouville Show, '98. Sire of Mabel Poet, P. 2964, H. C., and other noted animals, among them being Gamboge's Pride 4th. P. 8801, H. C., 2 lbs. 7½ ozs., being 48 days in milk in public butter test.

1st pr. winner over the Island, and Blythwood Bowl, Aug., '04 Sold in our auction sale, May, '05, for \$2,500.

Eight daughters of Caieat in our '05 sale, averaged \$987.50.

**Oxford Lass,
P. 3582, C.**
One of the most celebrated cows the Island ever produced.

Some years ago while on the Island, we called to see Oxford Lass, having been told it would be hard to find her equal in Jersey. Nothing could tempt the owner to name a price on

her, and he finally told us that if he sold the cow, he also would have to leave the Island. She has milked as high as 28 quarts daily, and her milk veins and udder were a sight to see. We were so much impressed with her that we went to see her several times. Her daughter, Oxford Ixia, tested on the Public Fair Grounds 2 lbs. 13 ozs. in 24 hours. She is also dam of Golden Queen of St. Saviour, 149137, A. J. C. C., that tested in Public Butter Test, 2 lbs. 14 ozs. in 24 hours, 214 days in milk. She is also dam of Flying Fox's Oxford Lass, 1st prize winner over the Island, August, 1903, in a large class. Also dam of Caieat, P. 2591, H. C., Houp La, P. 2793, H. C. and Oxford Lad, P. 3123, H. C. Three celebrated sires, the latter winning 1st prize at St. Saviour Show, 1892.

STOCKWELL'S EXILE, 79713, A. J. C. C.

Bred by T. S. Cooper.
Born November 7th, 1907.
Solid color; black tongue and switch.
A strong, rugged, young bull of great constitutional stamina; carries a nice head; strong, straight back; splendid withers; broad hips; tail well set; very thin, soft, mellow hide; body of enormous depth and width.

Sire

Stockwell,

P. 3550, H. C.

Sold at our May, '07, auction sale for \$11,500, to Hon. A. B. Lewis, Fredericksburg, Va. He is without a doubt the grandest show bull that has been seen on exhibition for years; this was the opinion expressed at the Chicago National Dairy Show, last October, by at least 80 per cent. of the best Jersey breeders in the country.

He comes from a family to which we have pinned our faith for many years.

He inherits from his illustrious dam and sire, dairy qualities of untold merit.

His heifers, that have come to milk on their first calving, have surprised us beyond belief, so much so, that they rob themselves and put too much in the pail.

His heifers in milk, and the young things to be sold at our sale next Decoration Day, will convince the most skeptic breeder that Stockwell is a bull of untold value.

Stockwell,

P. 3550, H. C.

Sold at our May, '07, auction sale for \$11,500, to Hon. A. B. Lewis, Fredericksburg, Va. He is without a doubt the grandest show bull that has been seen on exhibition for years; this was the opinion expressed at the Chicago National Dairy Show, last October, by at least 80 per cent. of the best Jersey breeders in the country.

He comes from a family to which we have pinned our faith for many years.

He inherits from his illustrious dam and sire, dairy qualities of untold merit.

His heifers, that have come to milk on their first calving, have surprised us beyond belief, so much so, that they rob themselves and put too much in the pail.

His heifers in milk, and the young things to be sold at our sale next Decoration Day, will convince the most skeptical breeder that Stockwell is a bull of untold value.

T. S. COOPER & SONS' AUCTION SALE OF JERSEY CATTLE.

No. 97. Bull Calf.

THE OWL'S STOCKWELL, 79714, A. J. C. C.

Bred by T. S. Cooper & Sons, Coopersburg, Pa.
Born January 25th, 1908.
Solid color; black tongue and switch.
A beautiful calf; nice head; thin, long neck;
straight back; soft, mellow hide.

One of the most valuable young bulls in the sale.
Any animal that can boast of having an "Owl" cow
for dam, has every chance of proving himself a suc-
cessful sire. An "Owl" cow on the Island can not
be bought at any price.

THE OWL'S RALEIGH, 79318, A. J. C. C.

Bred by J. C. Godfray, St. Saviour, Island of Jersey.

Born March 10th, 1907.

Imported by T. S. Cooper & Sons, October 8th, 1907.

Solid color; tongue and switch black.

A magnificent young bull of grand dairy type; nice head, with prominent eyes; strong back; with broad hips; thin, long tail, with splendid switch, nicely set; neat in bone; body of great depth and width; loose, mellow hide; large and beautifully-placed rudimentaries.

One of the most valuable young bulls in the importation.

Sire

P. 3722, H. C.

1st prize over the Island, Aug., '05.

1st prize Grouville, May, '05.

1st over Jersey, May, '07.

He is bred by Mr. Wm. Labey, and has been named by good judges the best bull on the Island.

He was bred by Mr. Wm. Labey (father of the great Fontaine family). We were told on the Island by the best judges that not in many years had they seen in the show-ring such a magnificent bull as Mabel's Raleigh. Mr. W. R. Spann told us last year that Mabel's Raleigh would bring at auction 15 to \$20,000. His tragic death was an irreparable loss to the Jersey world at large.

A magnificent dairy cow.

Mr. John A. Perree, Secretary Jersey Herd Book, writes as follows: "One of the few daughters of 'The Owl' left on the Island. Large sums of money have been offered for this cow, but always refused."

Dam of Flying Fox's Proclamation, 180259. Sold in our '04 sale, to Dr. C. E. Still, for \$2,350.

Raleigh, P. 3273, H. C. 4th over Jersey, '03.

2d State's prize, '03.

Raleigh was bred by Mr. Wm. J. Labey, Grouville, Island of Jersey, the breeder and owner of the great Fontaine family. As a successful sire his chances are very bright. He has four crosses to Golden Lad, through Golden Fern's Lad, Orme and Boyle, and was imported and now in use in the valuable herd of Mr. Frank Hart, Cherryville Ohio.

Imported by T. S. Cooper & Sons, October 8th, 1907.

Solid color; black tongue and switch.
One of the handsomest heifers in the importation; carries a nice head; large, prominent eyes; broad forehead; strong, straight back; broad hips; splendid withers; thin, long tail, beautifully set, thin, mellow hide; wide and deep body; extraordinary udder development, with large and beautifully-placed teats.

Sire

Mabel's Raleigh,
P. 3722, H. C.

1st prize over the Island, Aug., '05.
1st prize Grouville, May, '05.
1st over Jersey, May, '07.

He is bred by Mr. Wm. Labey, and has been named by good judges the best bull on the Island.

He was bred by Mr. Wm. Labey (father of the great Fontaine family). We were told on the Island by the best judges that not in many years had they seen in the show-ring such a magnificent bull as Mabel's Raleigh. Mr. W. R. Spann told us last year that Mabel's Raleigh would bring at auction 15 to \$20,000. His tragic death was an irreparable loss to the Jersey world at large.

Raleigh, P. 3273, H. C.
4th over Jersey, '03.
2d State's prize, '03.

Raleigh was bred by Mr. Wm. J. Labey, Grouville, Island of Jersey, the breeder and owner of the great Fontaine family. As a successful sire his chances are very bright. He has four crosses to Golden Lad, through Golden Fern's Lad, Orme and Boyle, and was imported and now in use in the valuable herd of Mr. Frank Hart, Cherryville, Ohio.

RALEIGH'S REMARKABLE, 213988, A. J. C. C.

Bred by C. Quenault, St. Saviour, Island of Jersey.
Born October 14th, 1906.
Imported by T. S. Cooper & Sons, October 8th, 1907.

Solid color; black tongue and switch.

A very handsome heifer, and the very type of her illustrious half-sister, "The Owl's Sensation." She is a little under size, but age will bring her all right. She has an enormous body, placed on short neat legs; strong back; good hips; thin, long tail; wide and deep body; very soft, mellow hide; extraordinary udder development, with large and beautifully-placed teats.

Cocotte was one of the handsomest and best dairy cows the Island ever produced, also a remarkable good breeder. We sold one of her daughters in the '05 sale, for \$750, to Hon. A. M. Bowman, of Salem, Va. Nothing could tempt the owner of Cocotte to name a price on her.

She is also dam of the cow The Owl's Sensation, 162128, A. J. C. C., whose 9 months' old son The Sensational Fern, 75924, sold in our May, '07 auction sale, to Hon. A. M. Bowman, Salem, Va., for \$10,200.

The Owl's Sensation is a magnificent dairy cow. She stood third for the Blythwood Bowl at the Royal Show on the Island, Aug., '02. She was an outstanding winner for the Bowl but owing to an accident she had to be milked before the judges passed on her.

Bred January 6th, 1908, to Beatrice's Golden Fern, 73349. His sire is the illustrious Golden Fern's Lad, and his dam the famous cow Golden Beatrice 2d, P. 8236, H. C. See front pages, B, for full pedigree.

Bred by C. Quenault, St. Saviour, Island of Jersey.
Born February 9th, 1907.
Imported by T. S. Cooper & Sons, October 8th, 1907.

Solid color; white tip to black tongue; black switch.
One of the handsomest young heifers in the importation, not only handsome, but royally bred and of great dairy type; carries a handsome head, with lovely eyes; thin neck; straight back; splendid withers; deep body; skin like a mole; extraordinary udder development with large and beautifully-placed teats.

Cocotte was one of the handsomest and best dairy cows the Island ever produced, also a remarkable good breeder. We sold one of her daughters in the '05 sale, for \$750, to Hon. A. M. Bowman, of Salem, Va. Nothing could tempt the owner of Cocotte to name a price on her. She is also dam of the cow The Owl's Sensation, 162128, A. J. C. C., whose 9 months' old son The Sensational Fern, 75924, sold in our May, '07 auction sale, to Hon. A. M. Bowman, Salem, Va., for \$10,200. The Owl's Sensation is a magnificent dairy cow. She stood third for the Blythwood Bowl at the Royal Show on the Island, Ang., '02. She was an outstanding winner for the Bowl but owing to an accident she had to be milked before the judges passed on her.

No. 103. Heifer.

STOCKWELL'S BELLE, 213911, A. J. C. C.

Bred by W. C. Gruchy, St. Martin, Island of Jersey.

Born November 10th, 1906.

Imported by T. S. Cooper & Sons, October 8th, 1907.

Solid color; black tongue and switch.

A very handsome heifer; nice head; prominent eyes; rich horns; thin, long neck; long, strong, straight back; deep body; thin, long tail, with splendid switch, very thin, loose, mellow hide; good udder development, with large and well placed teats.

Sire

Stockwell,

P. 3550, H. C.

Sold at our May, '07, auction sale for \$11,500, to Hon. A. B. Lewis, Fredericksburg, Va. He is without a doubt the grandest show bull that has been seen on exhibition for years; this was the opinion expressed at the Chicago National Dairy Show, last October, by at least 80 per cent. of the best Jersey breeders in the country.

He comes from a family to which we have pinned our faith for many years.

He inherits from his illustrious dam and sire, dairy qualities of untold merit.

His heifers, that have come to milk on their first calving, have surprised us beyond belief, so much so, that they rob themselves and put too much in the pail.

His heifers in milk, and the young things to be sold at our sale next Decoration Day, will convince the most skeptic breeder that Stockwell is a bull of untold value.

No. 105. Bull Calf.

BROWN FERN OF OAKLAND, 80124, A. J. C. C.

Bred by T. S. Cooper & Sons, Coopersburg, Pa.
Born January 15th, 1908.
Solid color; white tongue; black switch.
A very handsome calf, beautifully bred, and one
that can not help but leave good results.

Sire

Blue Belle's

Golden Fern,

69196, A. J. C. C.

One of the handsomest
bulls ever bred
at "Linden Grove."
He is of lofty cari-
age; beautiful head
with large, sparkling
eyes; rich amber
horns; beautiful
neck; very long,
strong, straight
back; best of loins,
broad hips; beauti-
fully-set tail, which
is thin and long, with
magnificent switch;
neat in bone; rich
skin, which is thin
and soft as a mole's;
body of great depth
and width; large
rudimentaries and
beautifully placed.

Dam

Rose of Oaklands,

195834, A. J. C. C.

Bred by Mr. John A.
Perree, Island of
Jersey.
A magnificent dairy
cow milking 22 qts.
and a grand breeder.

Golden Fern's Lad,
P. 2160, H. C.
1st and Champion at
N. C. Show, '96, '97.
The most celebrated
bull the Island of
Jersey has ever pro-
duced. His son Fly-
ing Fox sold in our
May, 1902, sale for
\$7,500. His son
Eminent 2d, sold in
our May, 1905, auc-
tion sale for \$10,000.
His ten months' old
bull calf sold in our
May, 1907, sale for
\$10,200, and in same
sale his grandson
"Stockwell" sold
for \$11,500.

Ten of his get have
been sold at an aver-
age of \$4,560. His
sons and daugh-
ters have been win-
ning first prizes and
Grand Champion
honors from the At-
lantic to the Pacific.
His five tested daugh-
ters averaged 18 lbs.
5½ ozs. each. His
two (2) best daugh-
ters in Public But-
ter Test are Free-
dom, 2 lbs. 10 ozs.
of butter in 24 hours
at the Tring Show
Ring, England, be-
ing 140 days in milk.

"Blue Belle" is a typical dairy cow from
the tip of her nose to the end of her switch.
She swings a very handsome and finely po-
lished head, with large, sparkling, prominent
eyes; broad forehead; dishd face; rich, amber
horns; broad nozzle with large nostrils; thin,
long neck; best of withers; straight, long back;
broad hips; beautifully-set, thin, long, whip
tail, with grand switch; grand wedge-shaped
body of great depth and width; neat in bone;
skin as soft and thin as a mole's; milk veins
so large and tortuous that one prominent breeder
when he saw her, thought she had a rupture.
Her udder is absolutely perfect, and when fresh,
without any exception, the largest we have
ever seen on any cow, and when milked out,
it can be taken in two hands. Teats large
enough for any one and most beautifully placed.
"Blue Belle" is one of the greatest dairy
cows we have ever owned. As a mother of a
great reproducing butter family, she is way up
at the top of the ladder.
